1.0 Login Logic

AUTH-03

- Institutional email/password for every role
- inactive accounts blocked
- route by role
- sign out ends session. Signed expiring authentication is a backend requirement.

2.0 Membership request

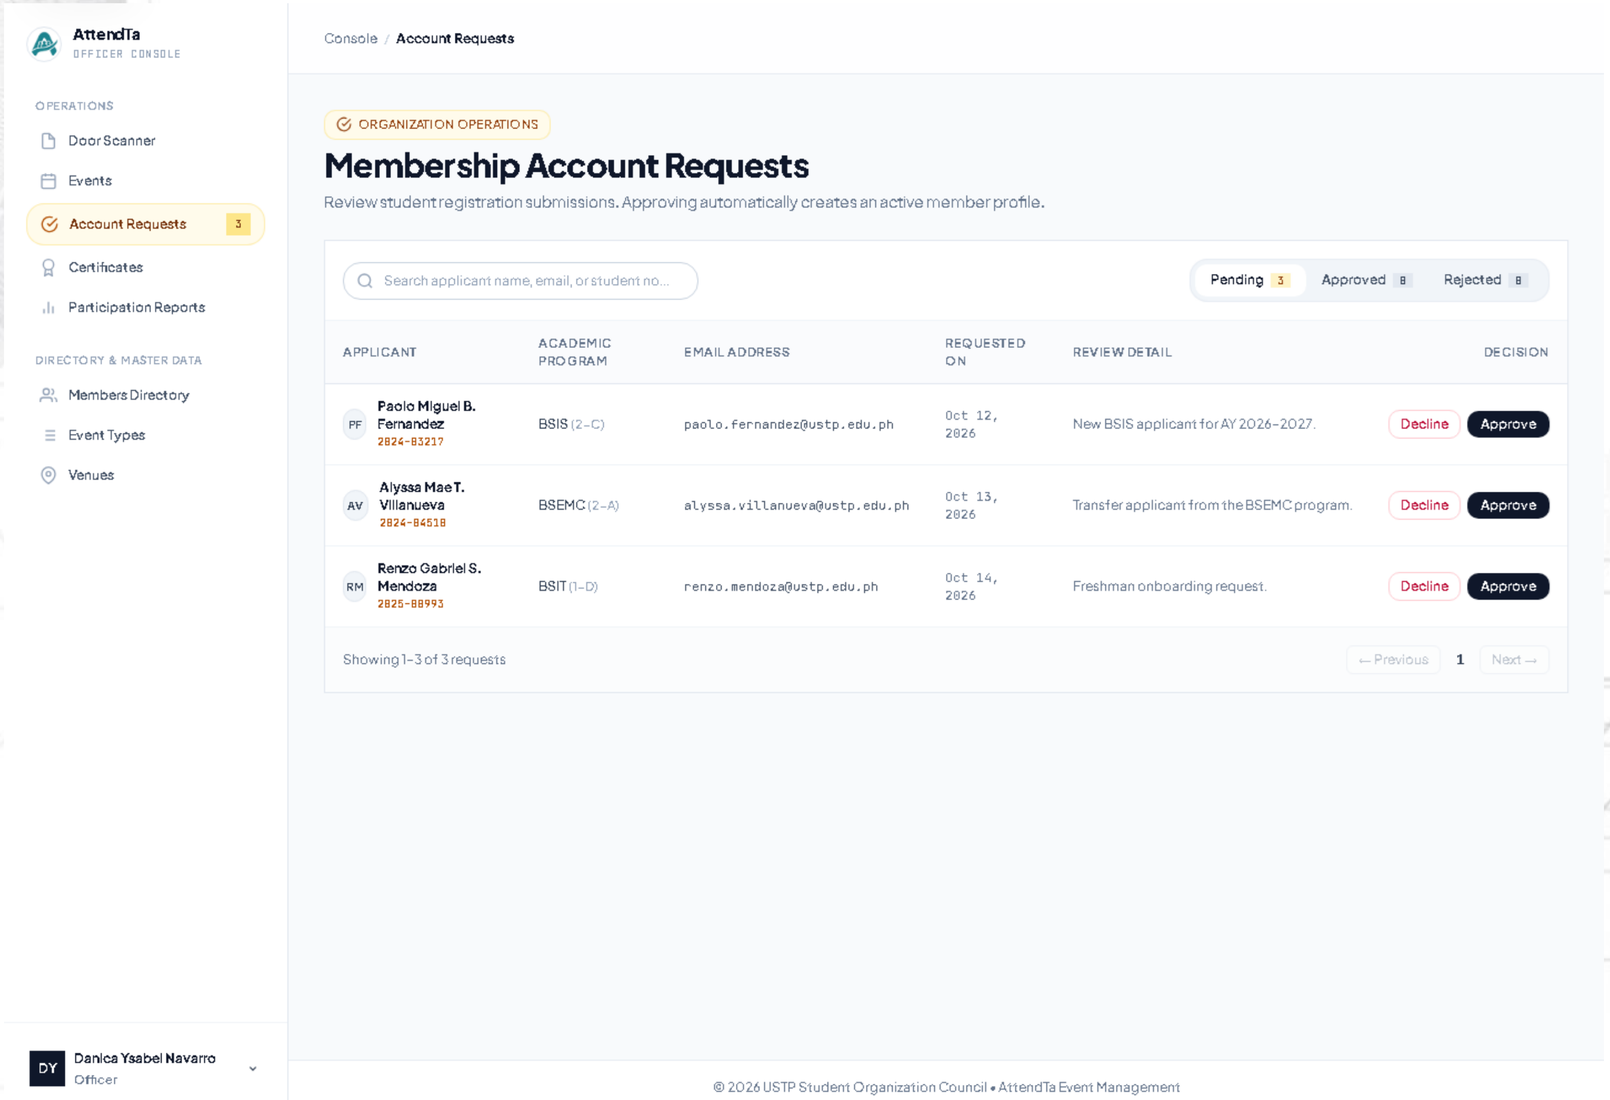

2.0 Membership request Logic

AUTH-01

- Validate identity and academic details
- block duplicates
- submit pending request
- allow a new request after rejection. Password hashing belongs in design notes, not screenshots.

3.0 Account requests

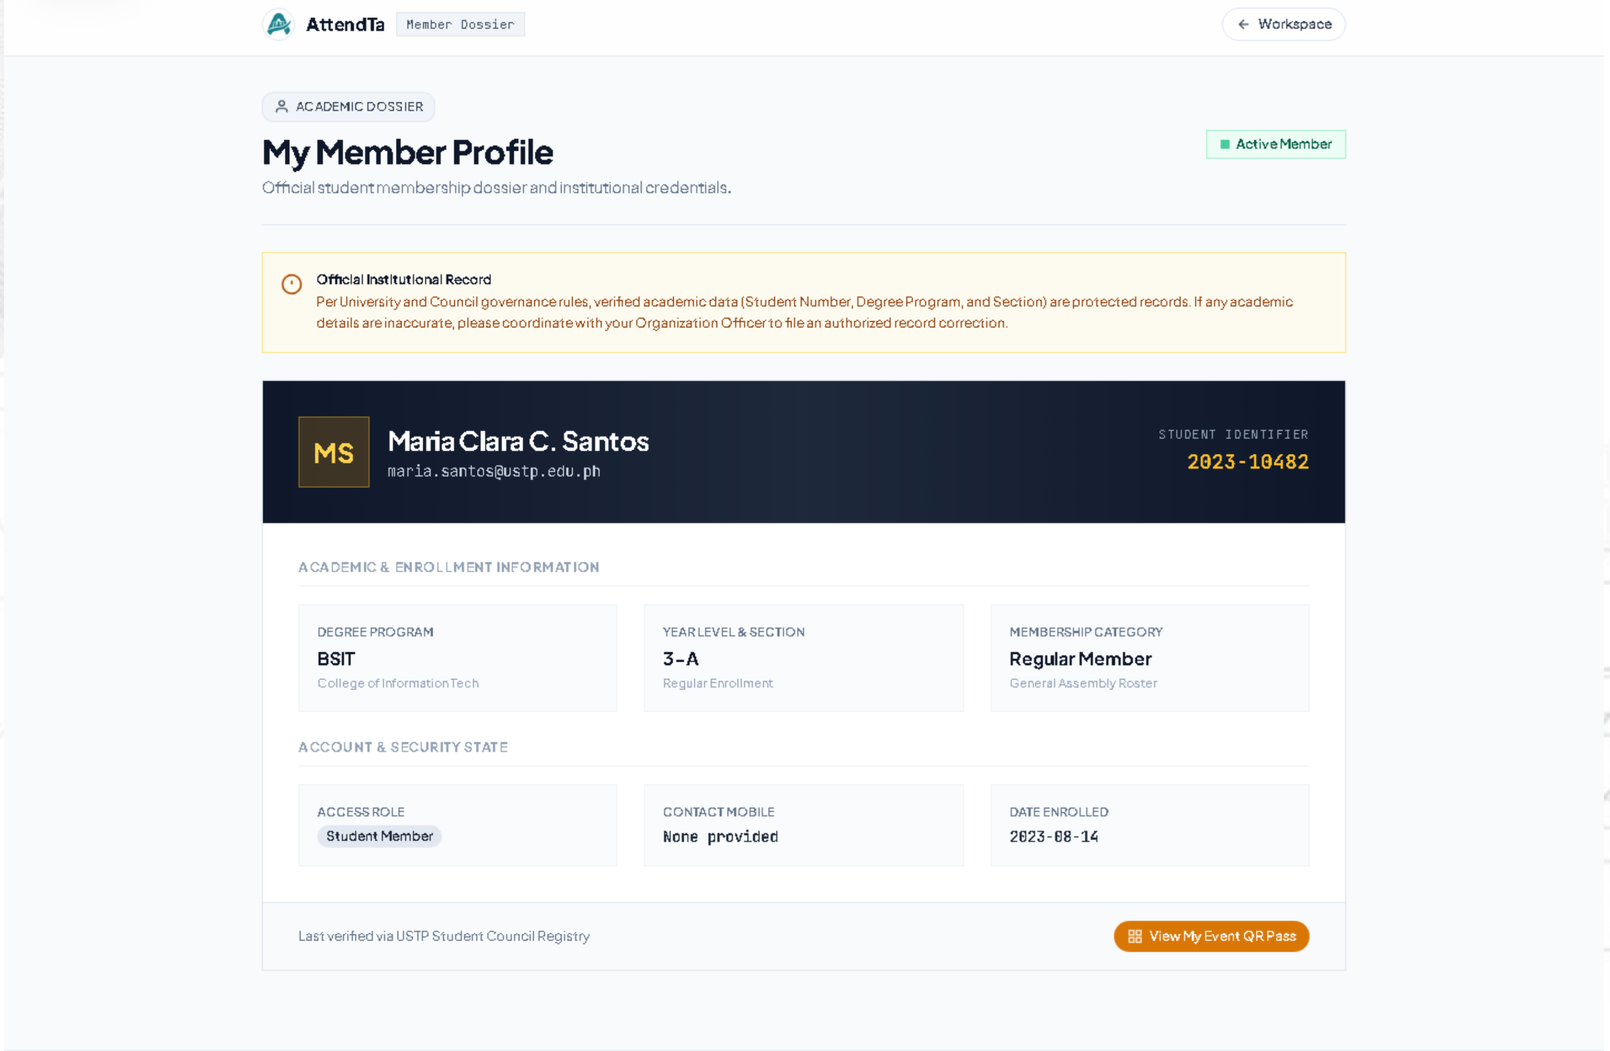

3.0 Account requests Logic

AUTH-02

- Review pending only
- approval creates linked active member account/profile
- rejection requires reason
- record decision
- finalized requests cannot be reviewed again.

4.0 My profile

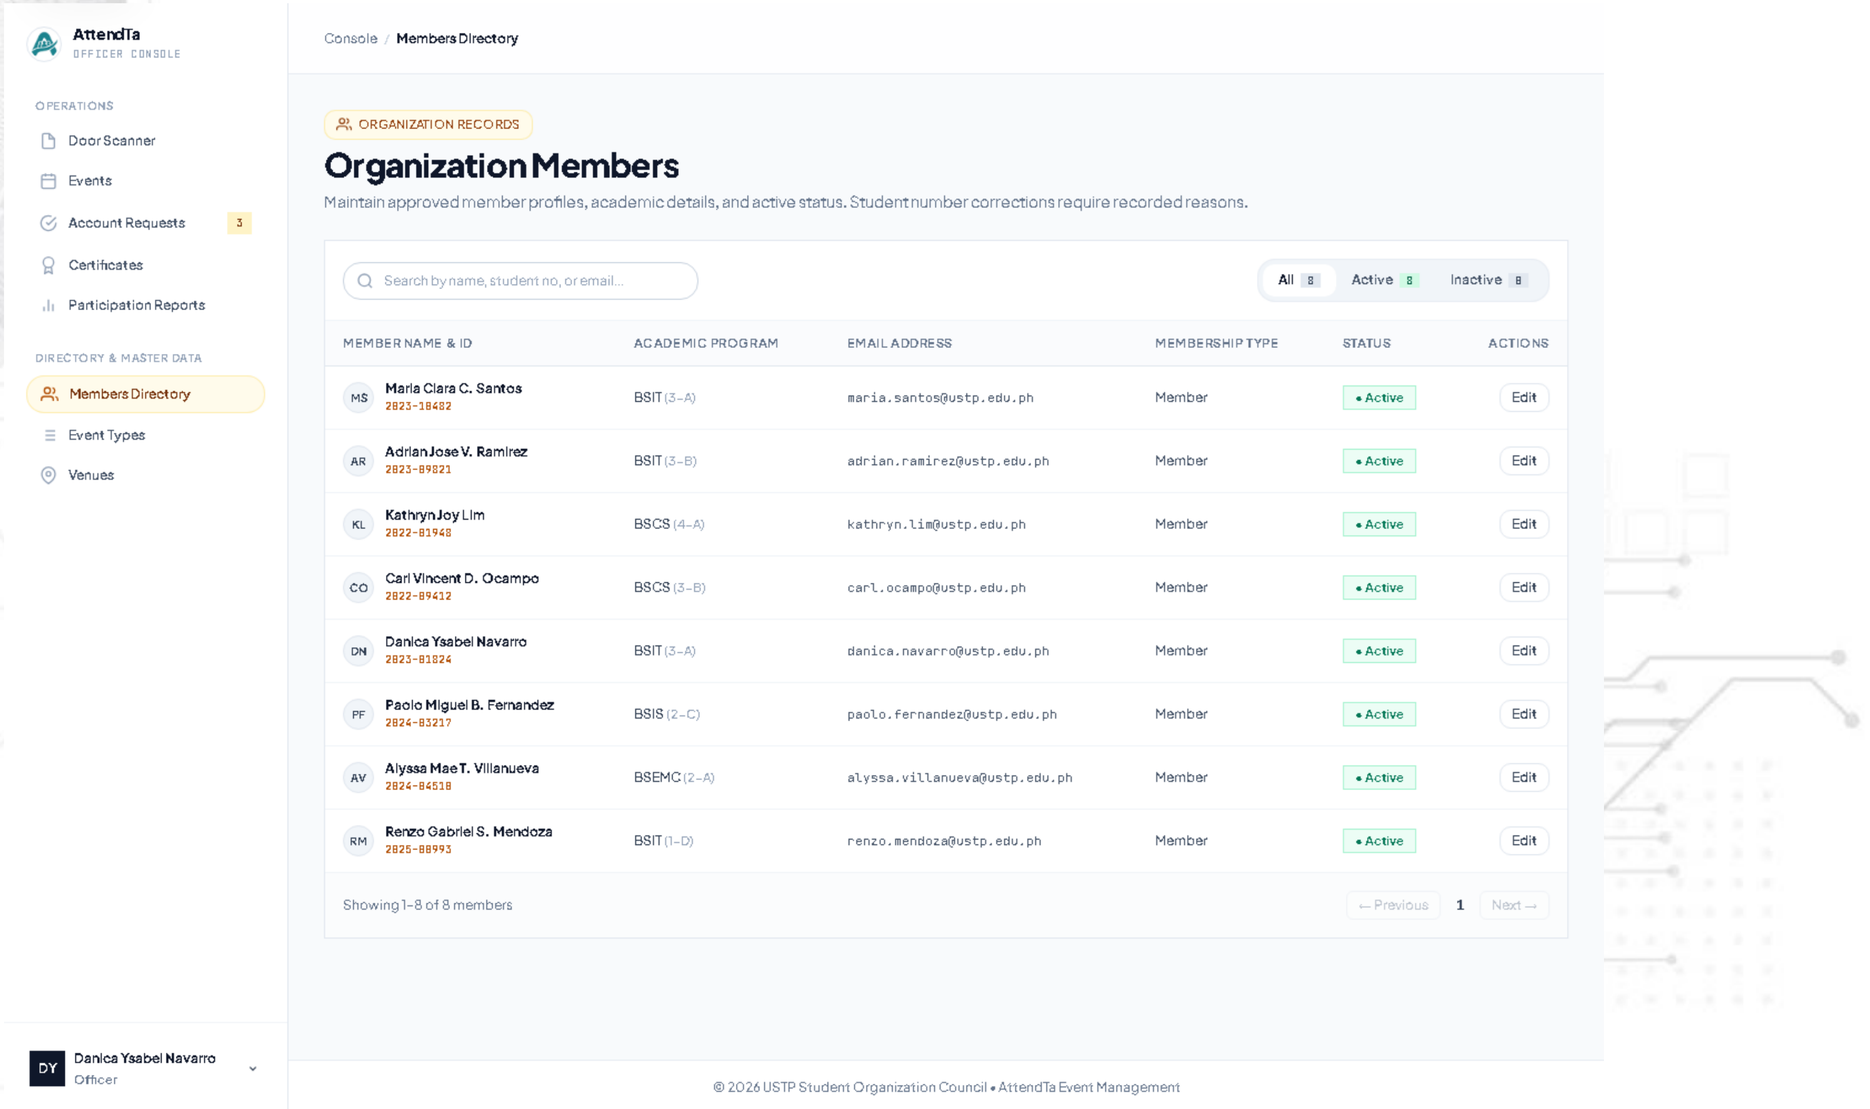

Member; shared account identity | MD-01

4.0 My profile Logic

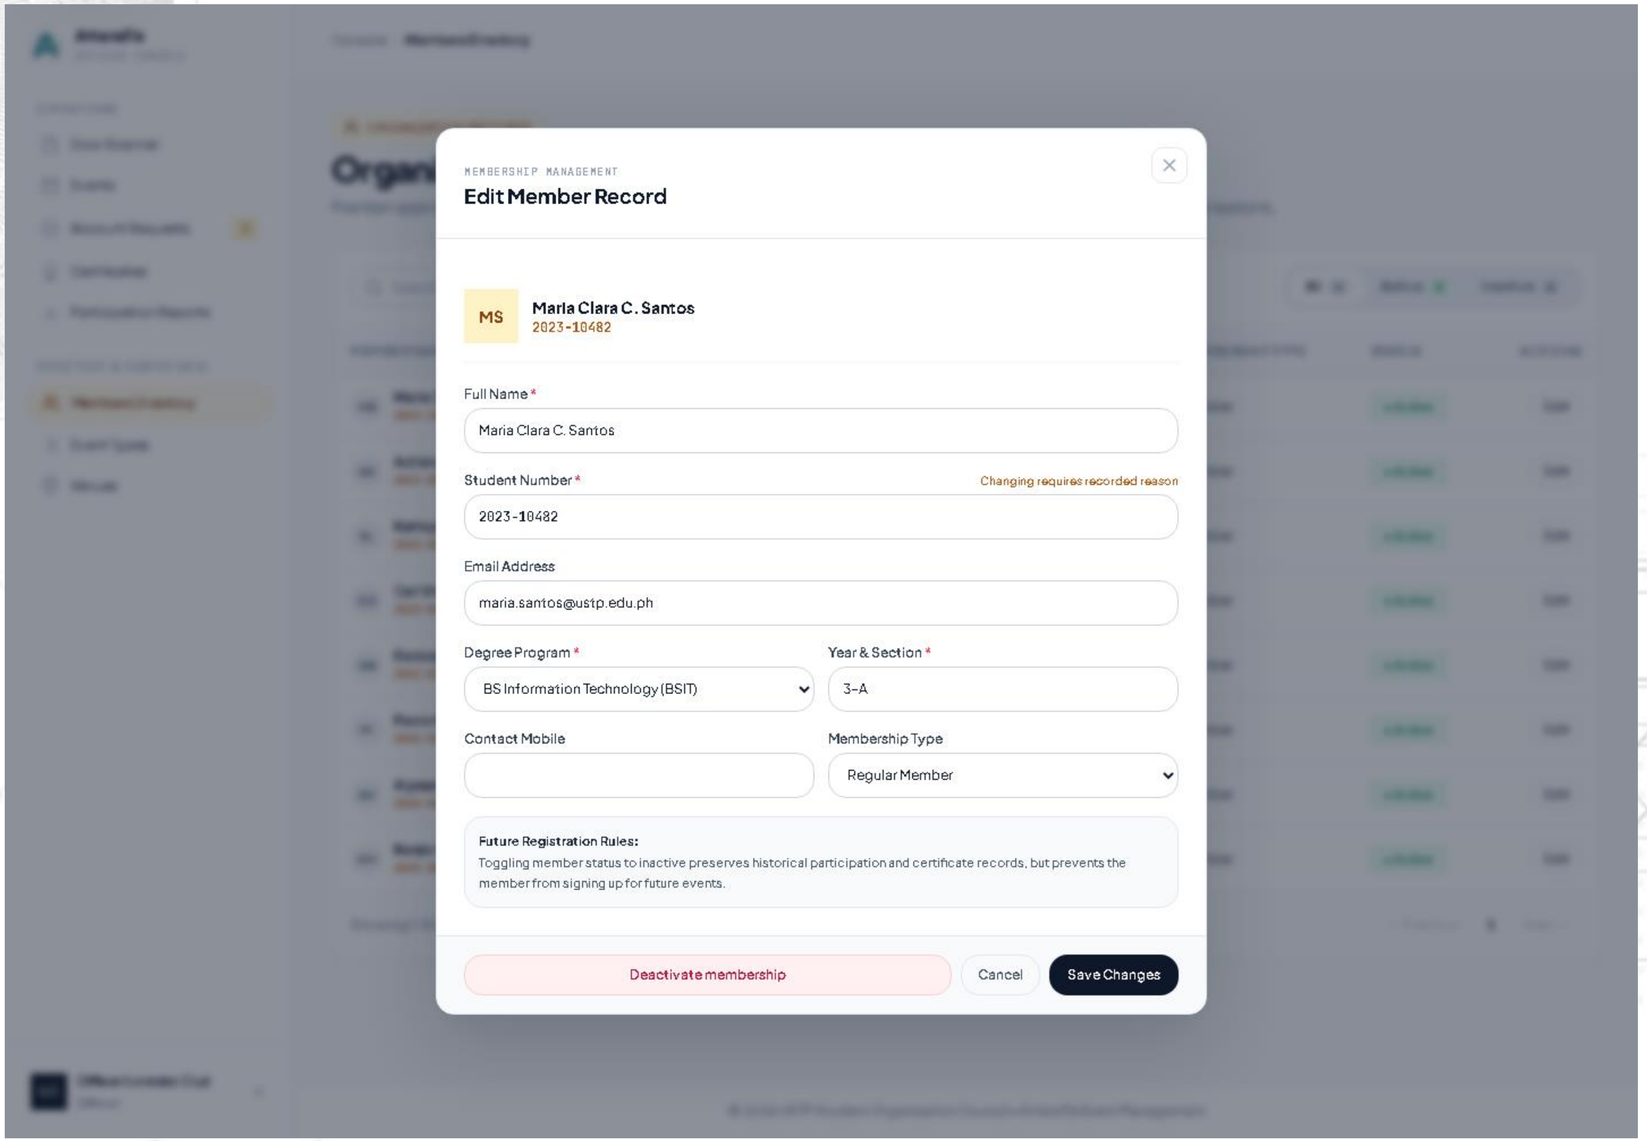

MD-01

- Member sees own details
- officer handles corrections
- no profile image upload or password-change workflow.

5.0 Members — Edit membership

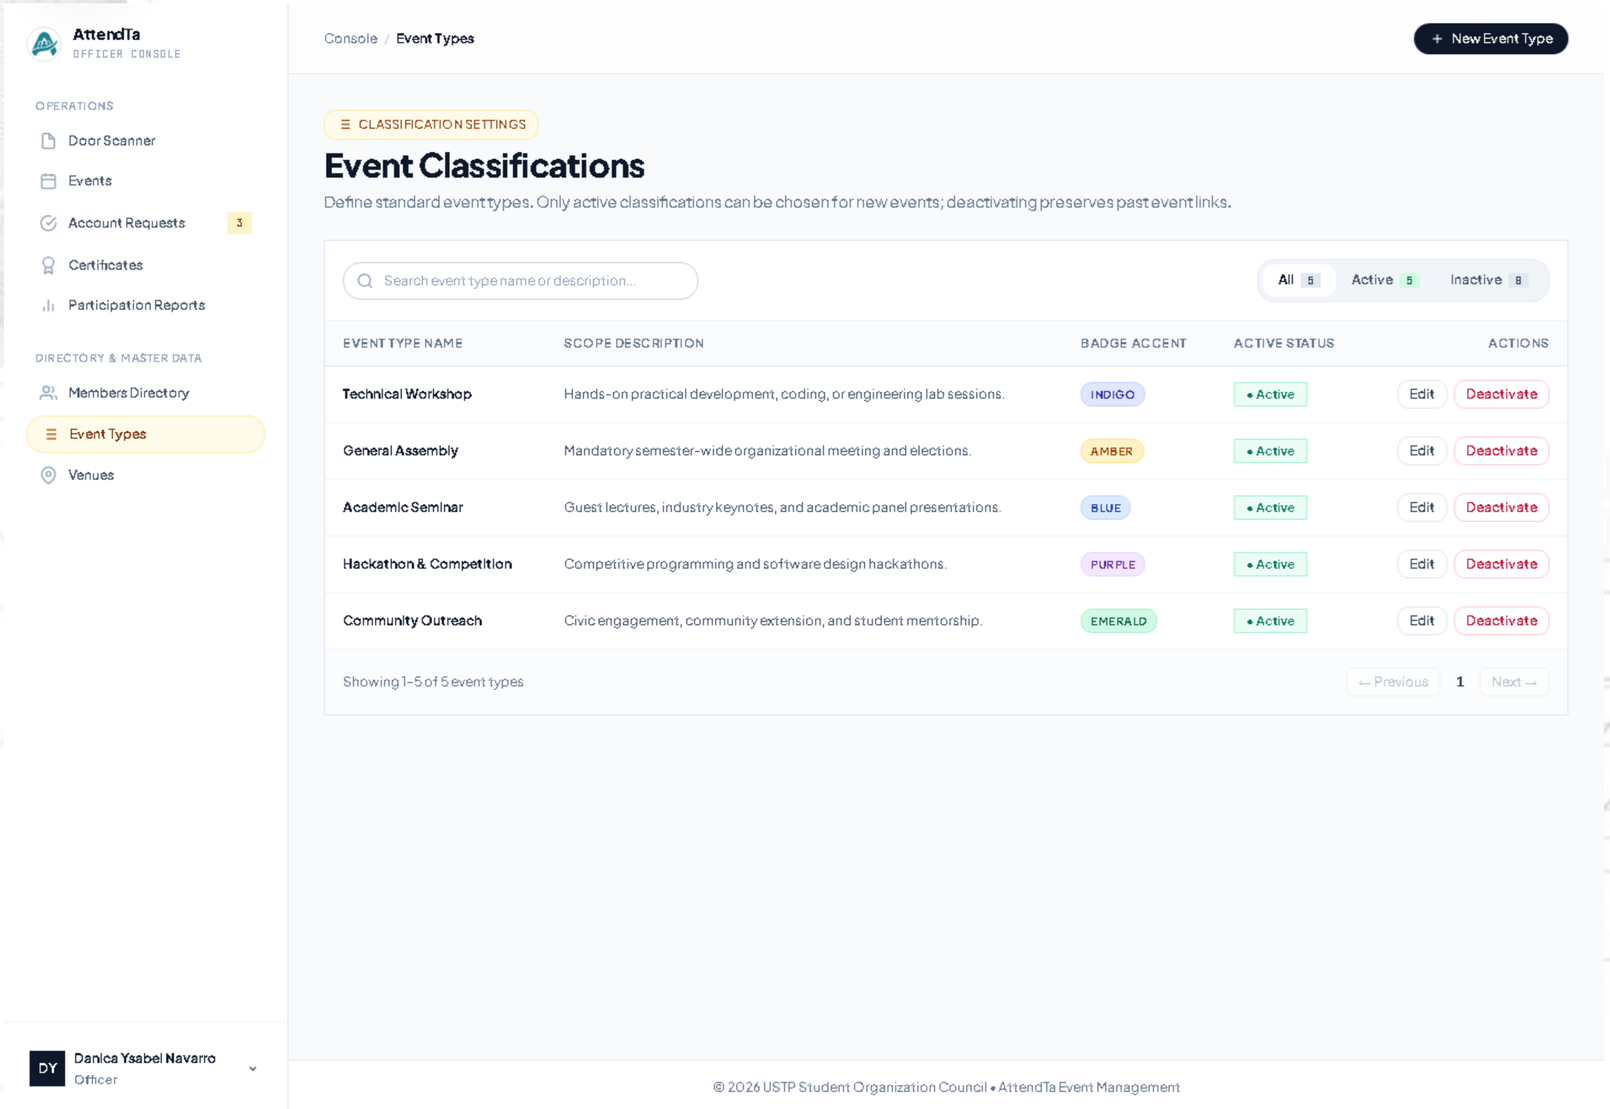

5.0 Members Logic

MD-02

- Officer/Admin maintains membership and details
- student-number corrections require reason
- preserve history
- inactive membership applies future-registration rules. Distinguish membership status from account access.

6.0 Event types

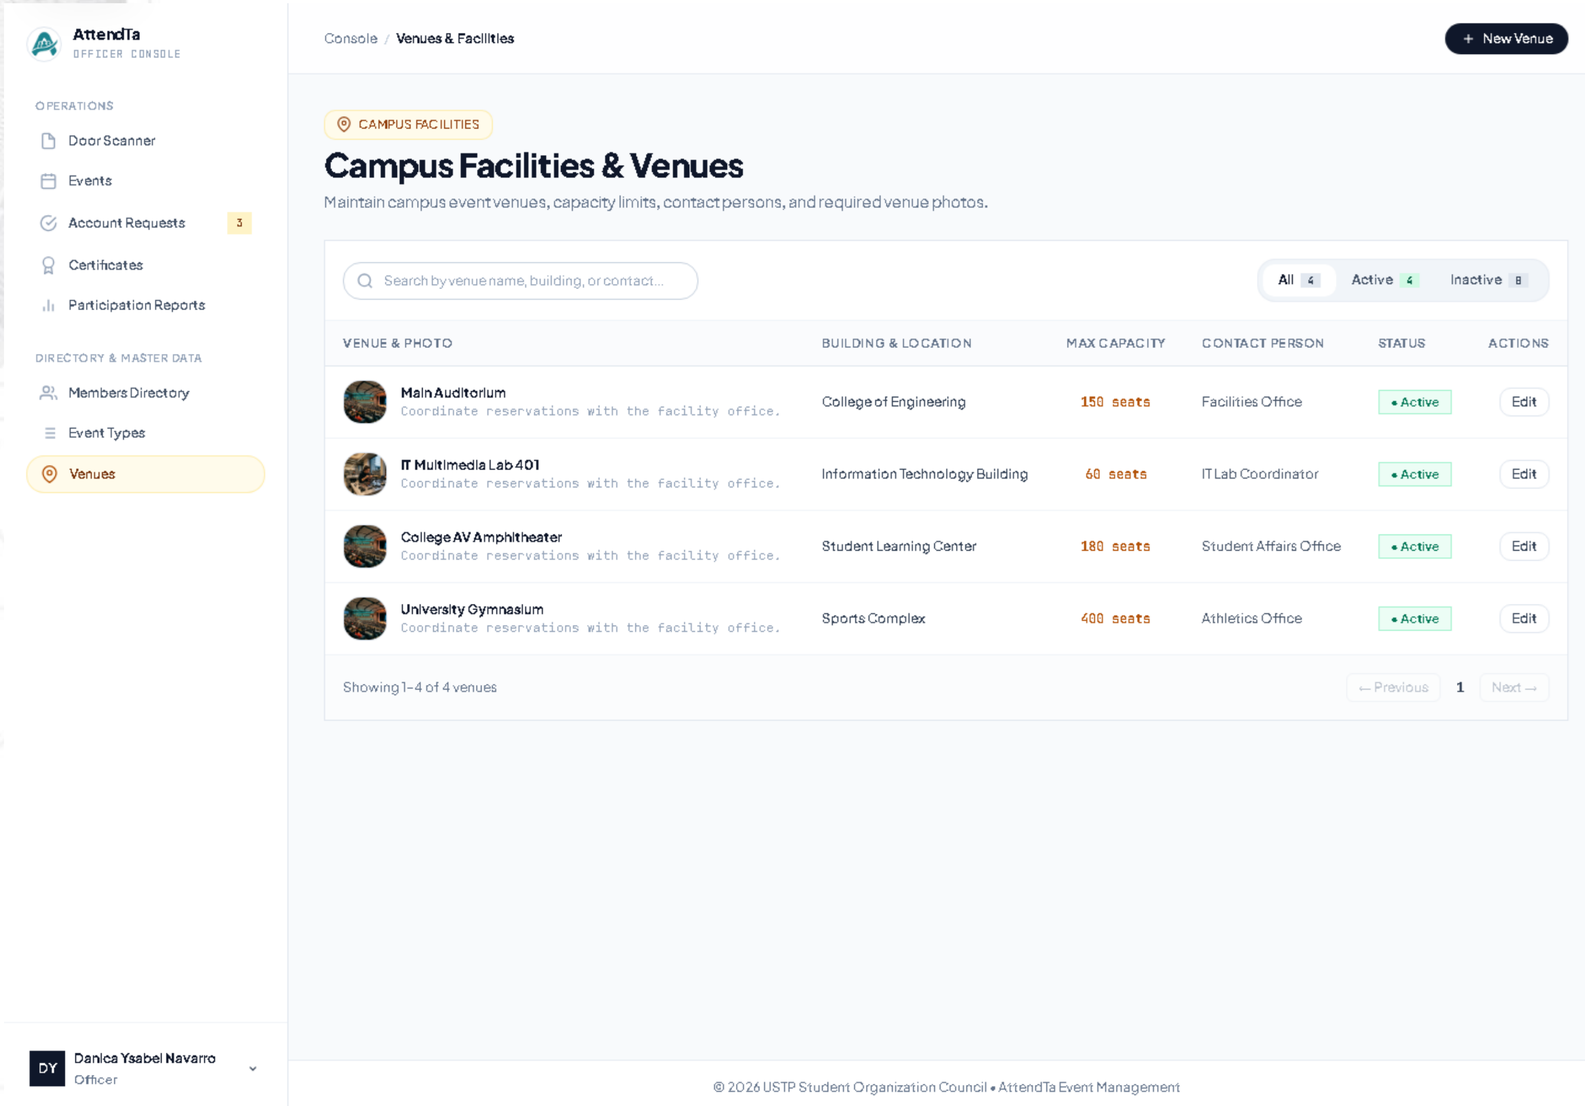

6.0 Event types Logic

MD-03

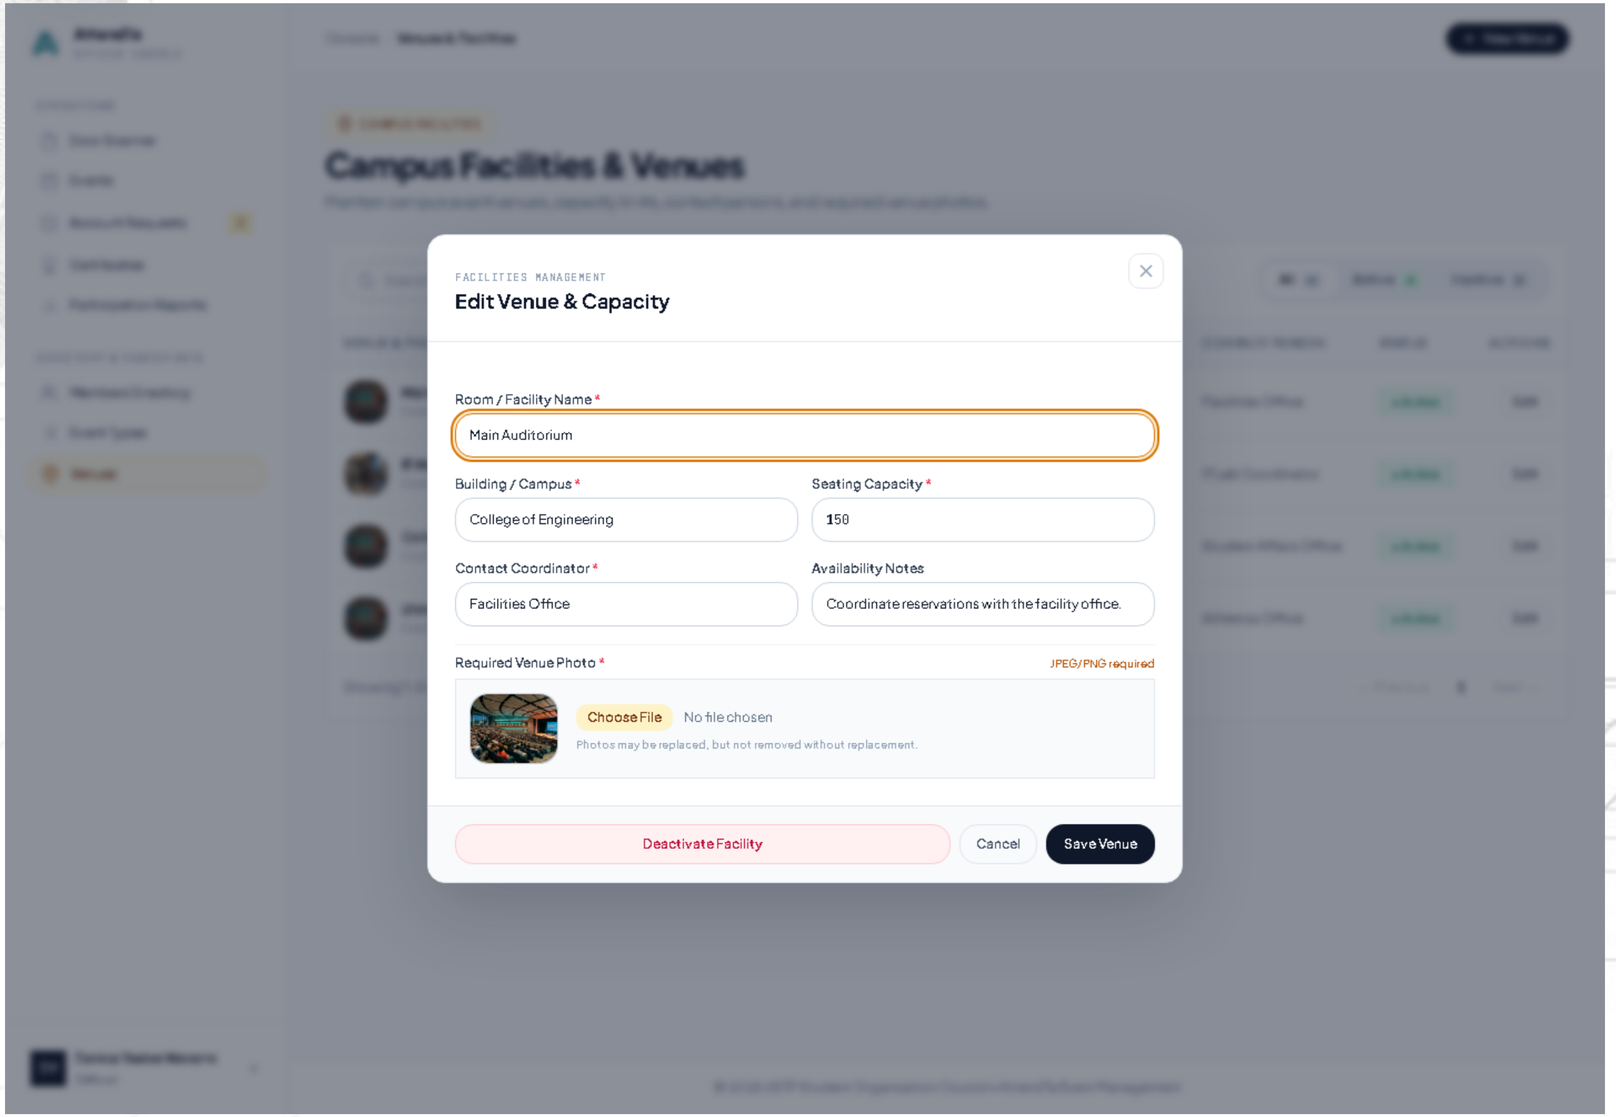

- Unique names
- activate/deactivate
- inactive types unavailable for new selections
- preserve existing references.

7.0 Venues

Officer/Admin | MD-04, MD-05

7.0 Venues — Edit venue

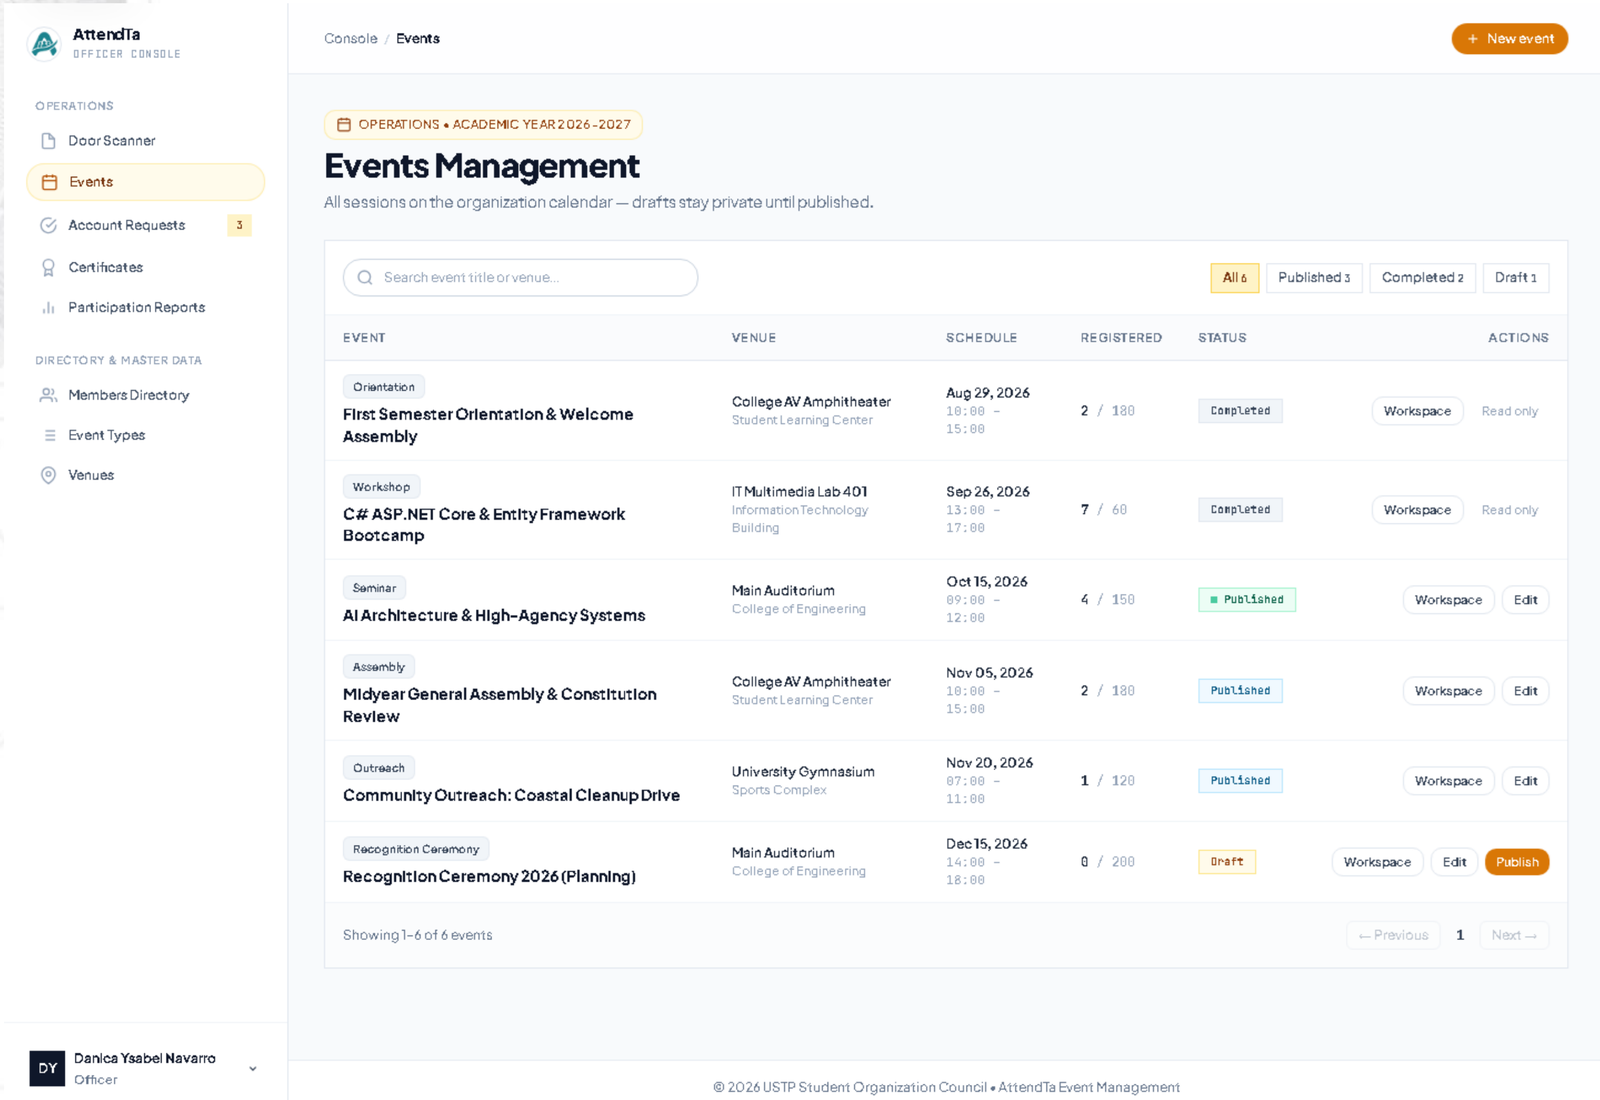

MD-04, MD-05 | Supporting screen state

7.0 Venues Logic

MD-04
- Required photo and valid capacity
- validate changes against linked draft/published events
- replace required photo rather than remove it.

MD-05
- JPEG/PNG venue photo and event cover
- cover required to publish
- preserve required images on replacement. No profile pictures.

8.0 Event management

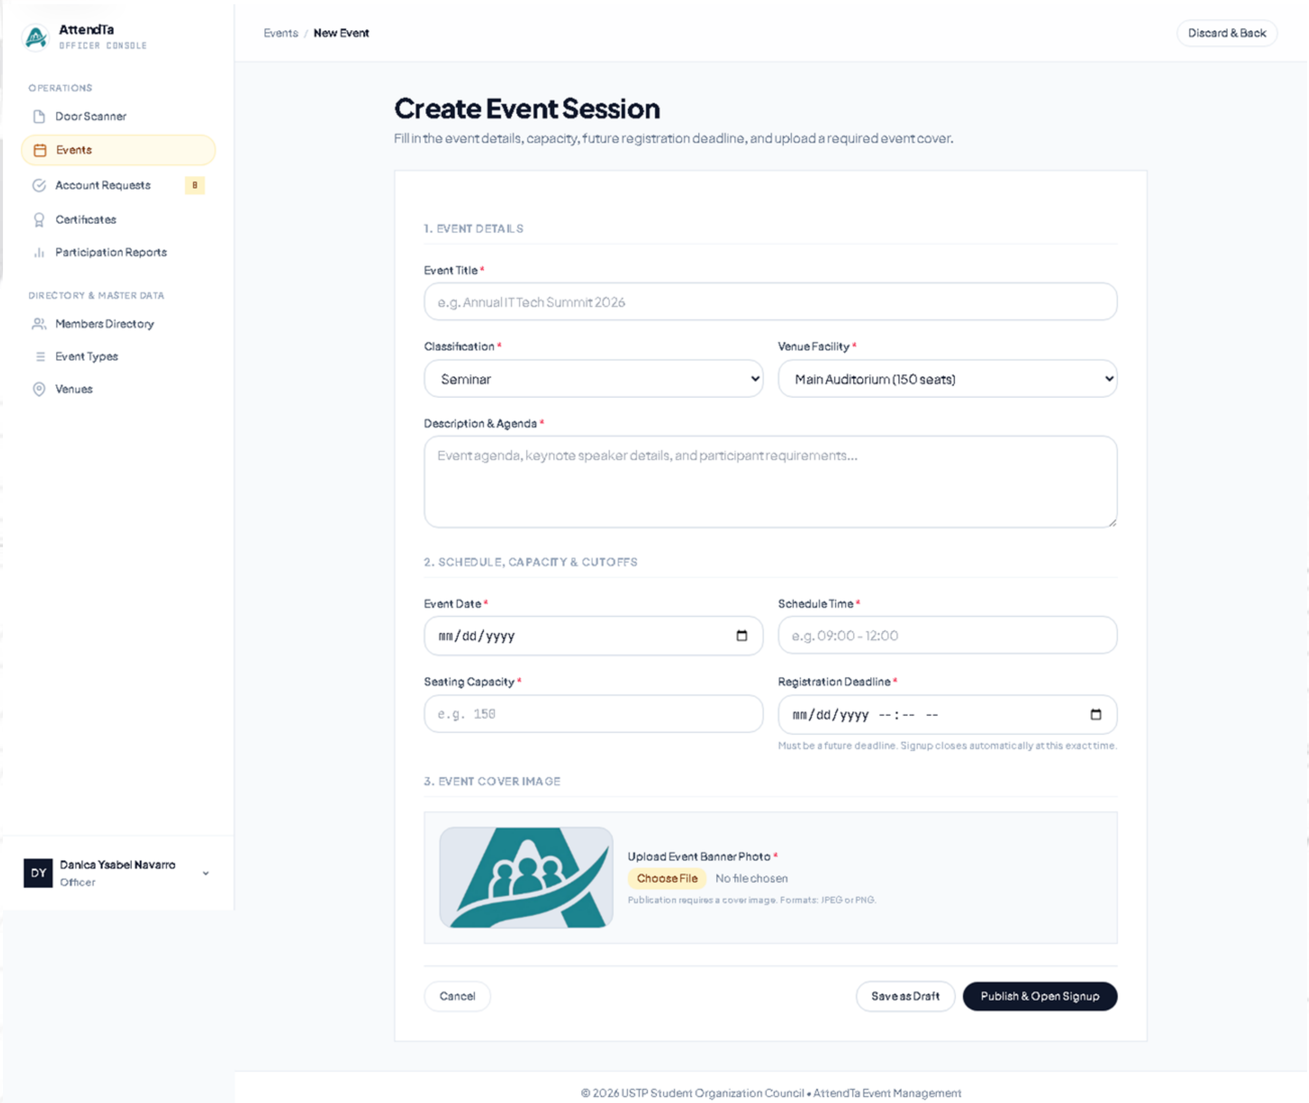

8.0 Event management Logic

EVT-01

- Validate dates, deadline, capacity, active master data and cover
- publication opens signup and member visibility.

9.0 Create event

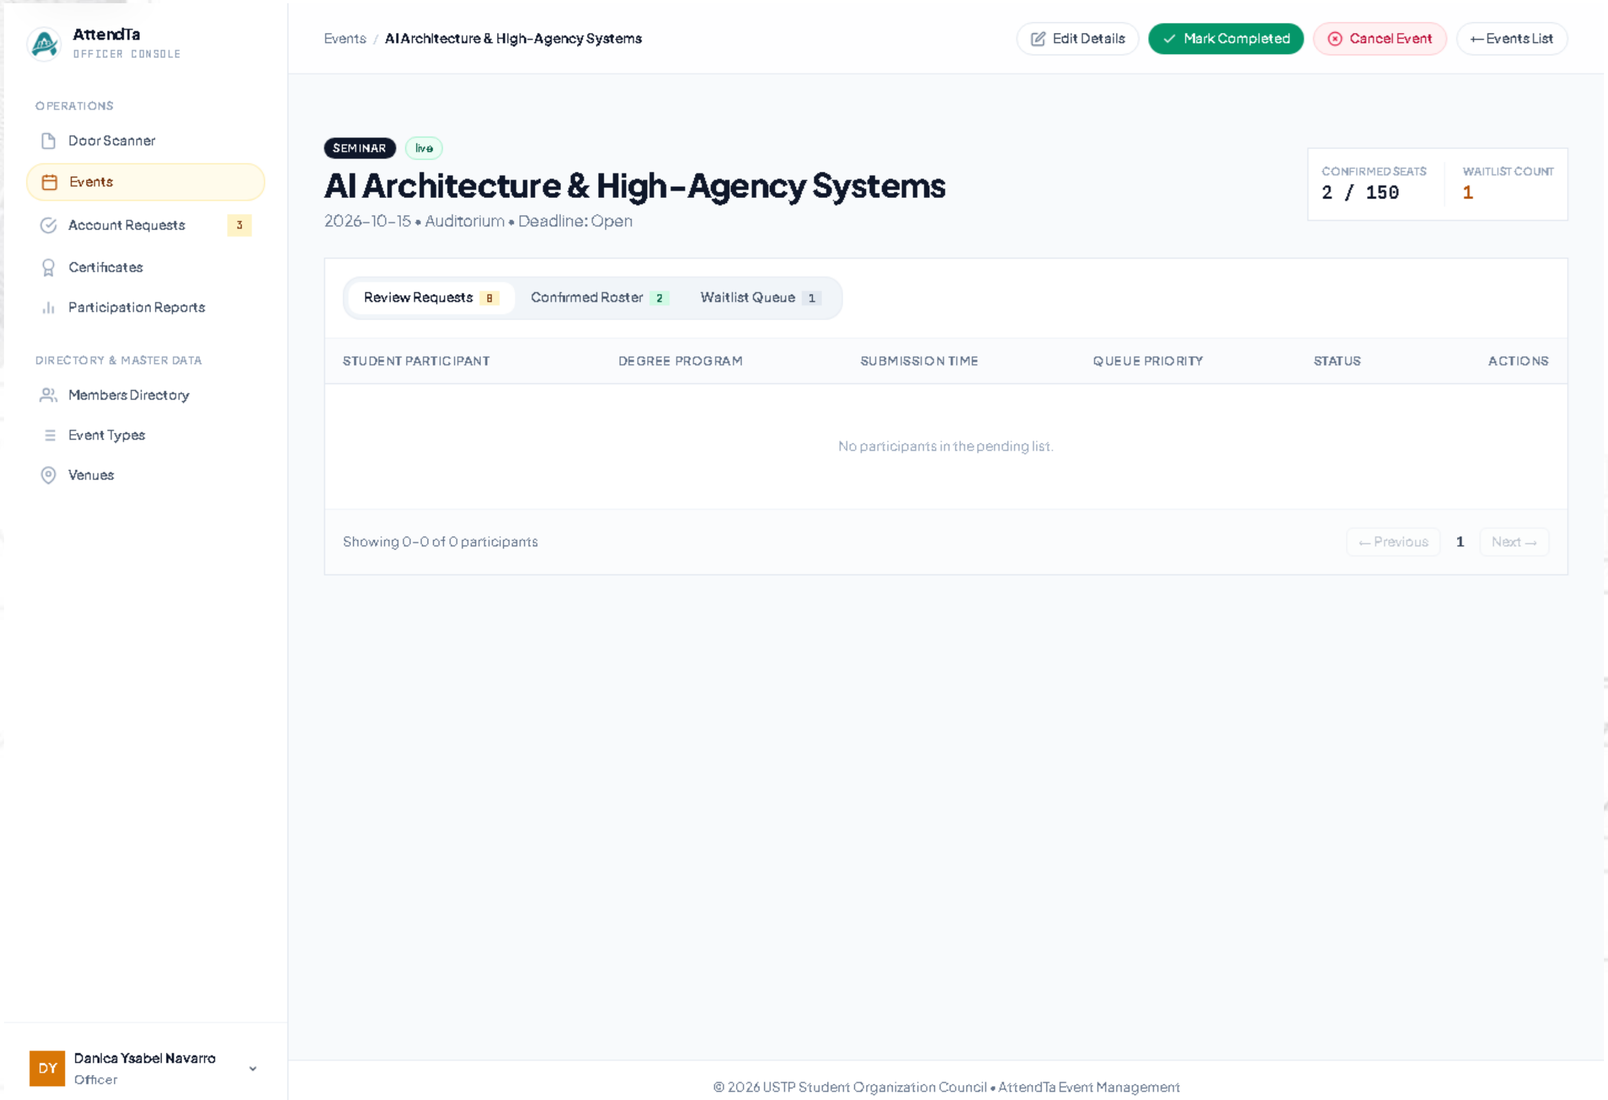

Officer/Admin | MD-05, EVT-01

9.0 Create event Logic

MD-05
- JPEG/PNG venue photo and event cover
- cover required to publish
- preserve required images on replacement. No profile pictures.

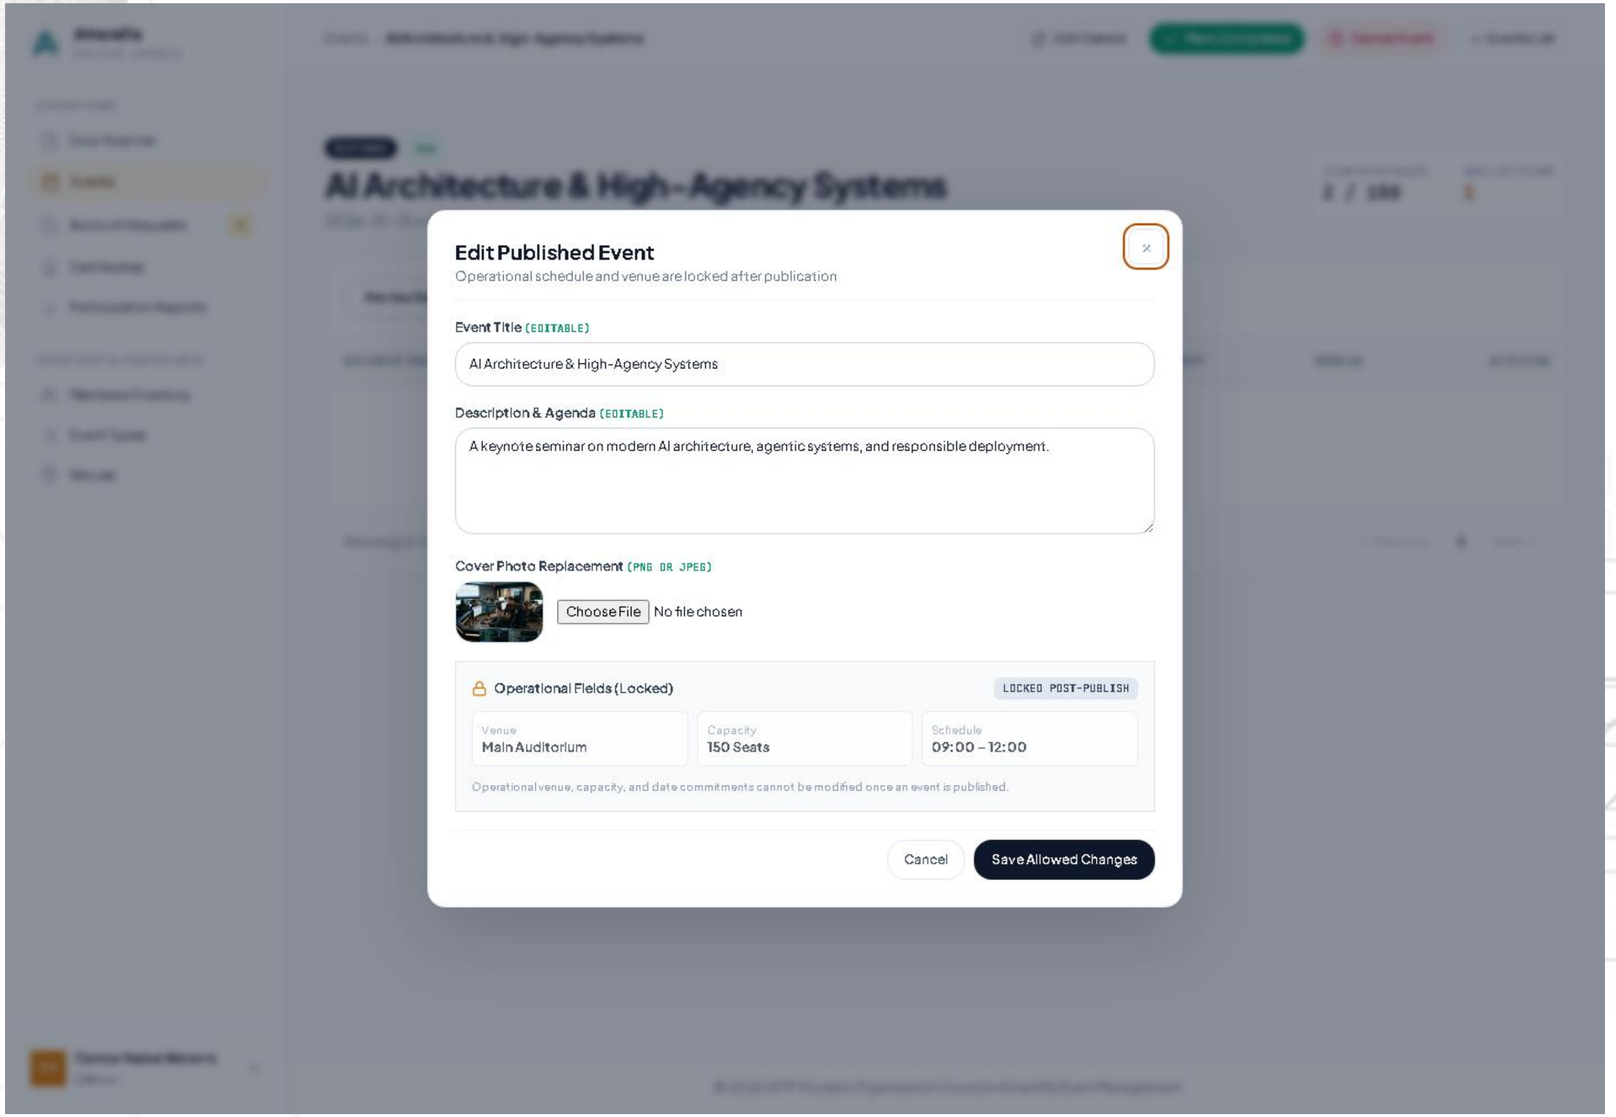

EVT-01
- Validate dates, deadline, capacity, active master data and cover
- publication opens signup and member visibility.

10.0 Event details and registrations

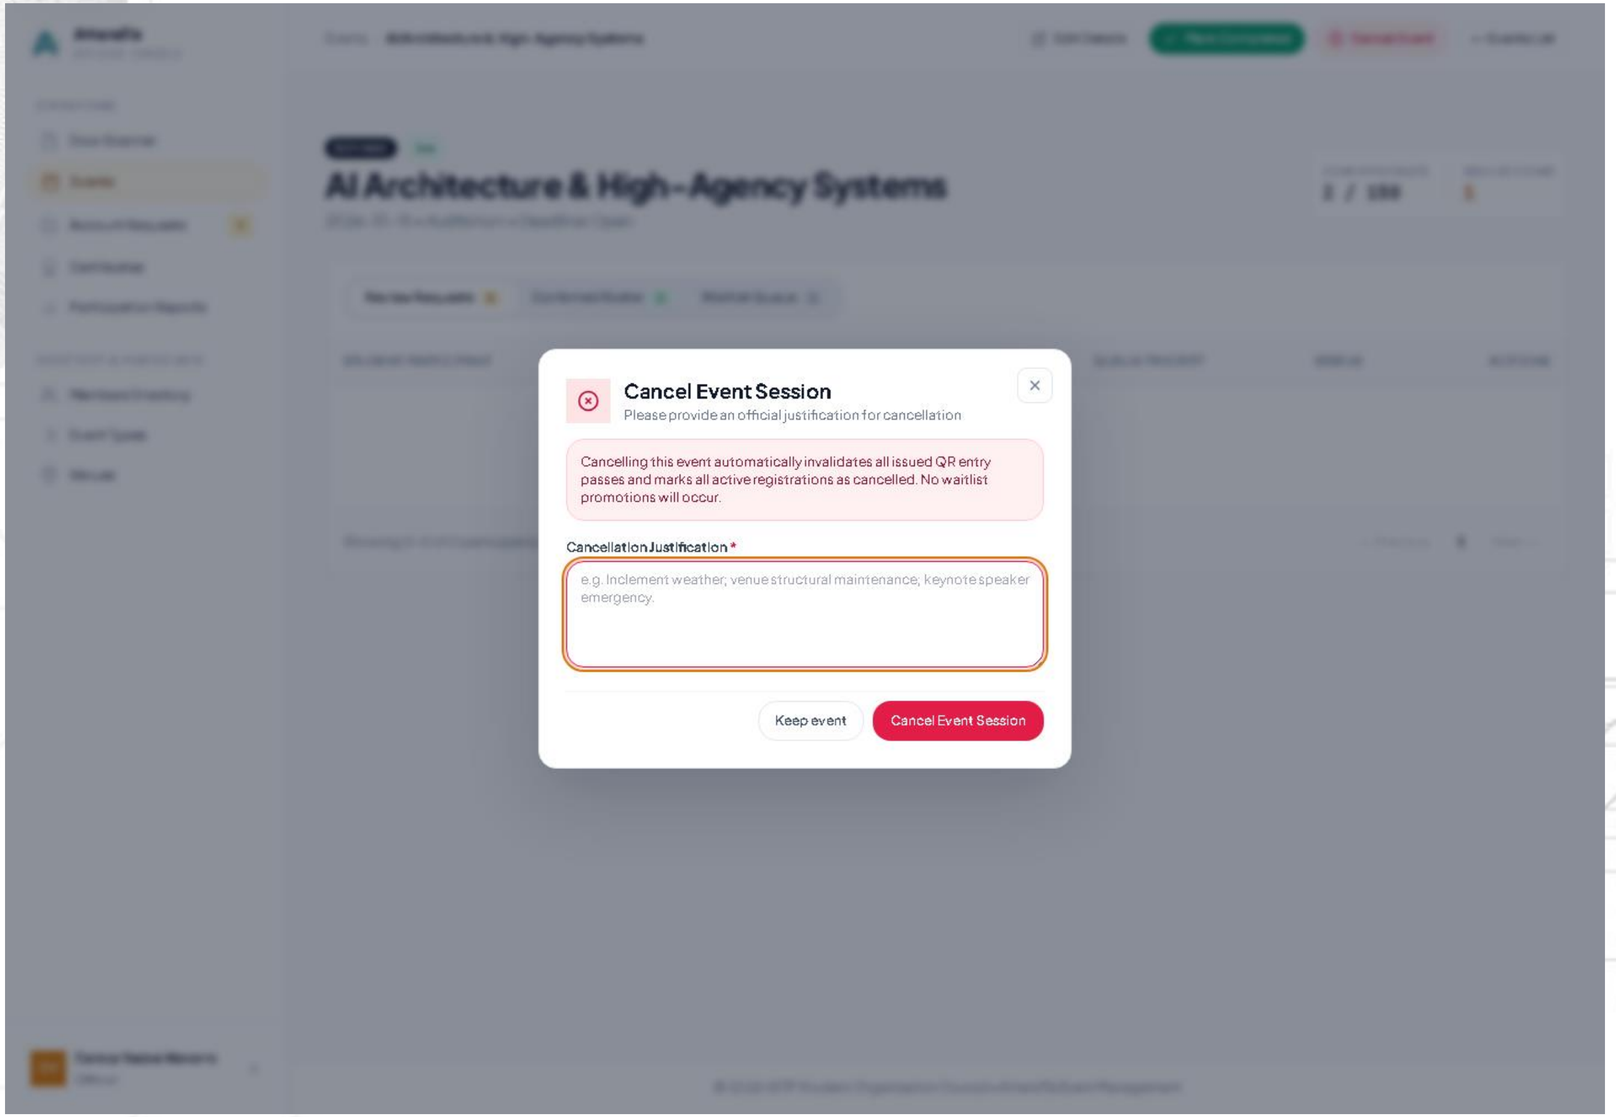

Officer/Admin | MD-05, EVT-03, EVT-04, REG-02, REG-04, REG-05

10.0 Event details and registrations — Edit published event

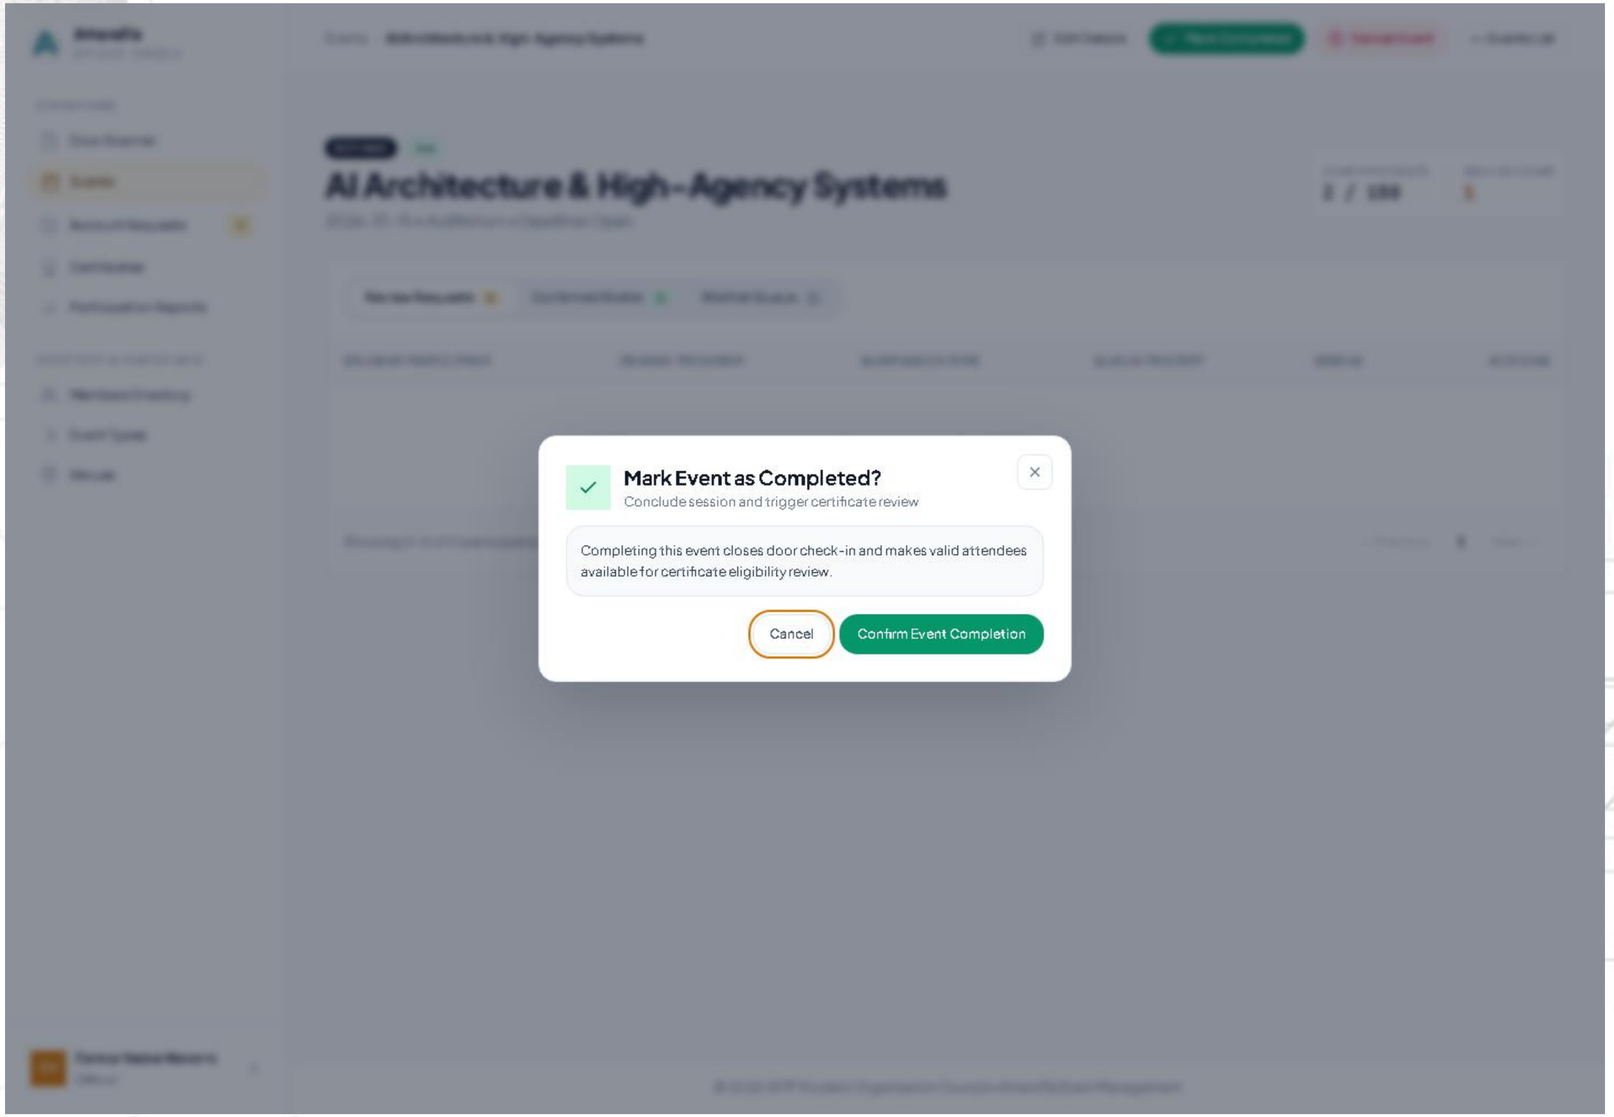

MD-05, EVT-03, EVT-04, REG-02, REG-04, REG-05 | Supporting screen state

10.0 Event details and registrations — Cancel event

MD-05, EVT-03, EVT-04, REG-02, REG-04, REG-05 | Supporting screen state

10.0 Event details and registrations — Complete event

MD-05, EVT-03, EVT-04, REG-02, REG-04, REG-05 | Supporting screen state

10.0 Event details and registrations Logic (1/3)

MD-05
- JPEG/PNG venue photo and event cover
- cover required to publish
- preserve required images on replacement. No profile pictures.

EVT-03
- Draft: validated edits
- published: title/description/cover only
- operational fields locked
- completed/cancelled read-only.

10.0 Event details and registrations Logic (2/3)

EVT-04
- Cancel with reason
- cancel active registrations and QR access
- no promotion
- block after valid attendance or issuance. Complete concluded event explicitly, close check-in, enable certificate review.

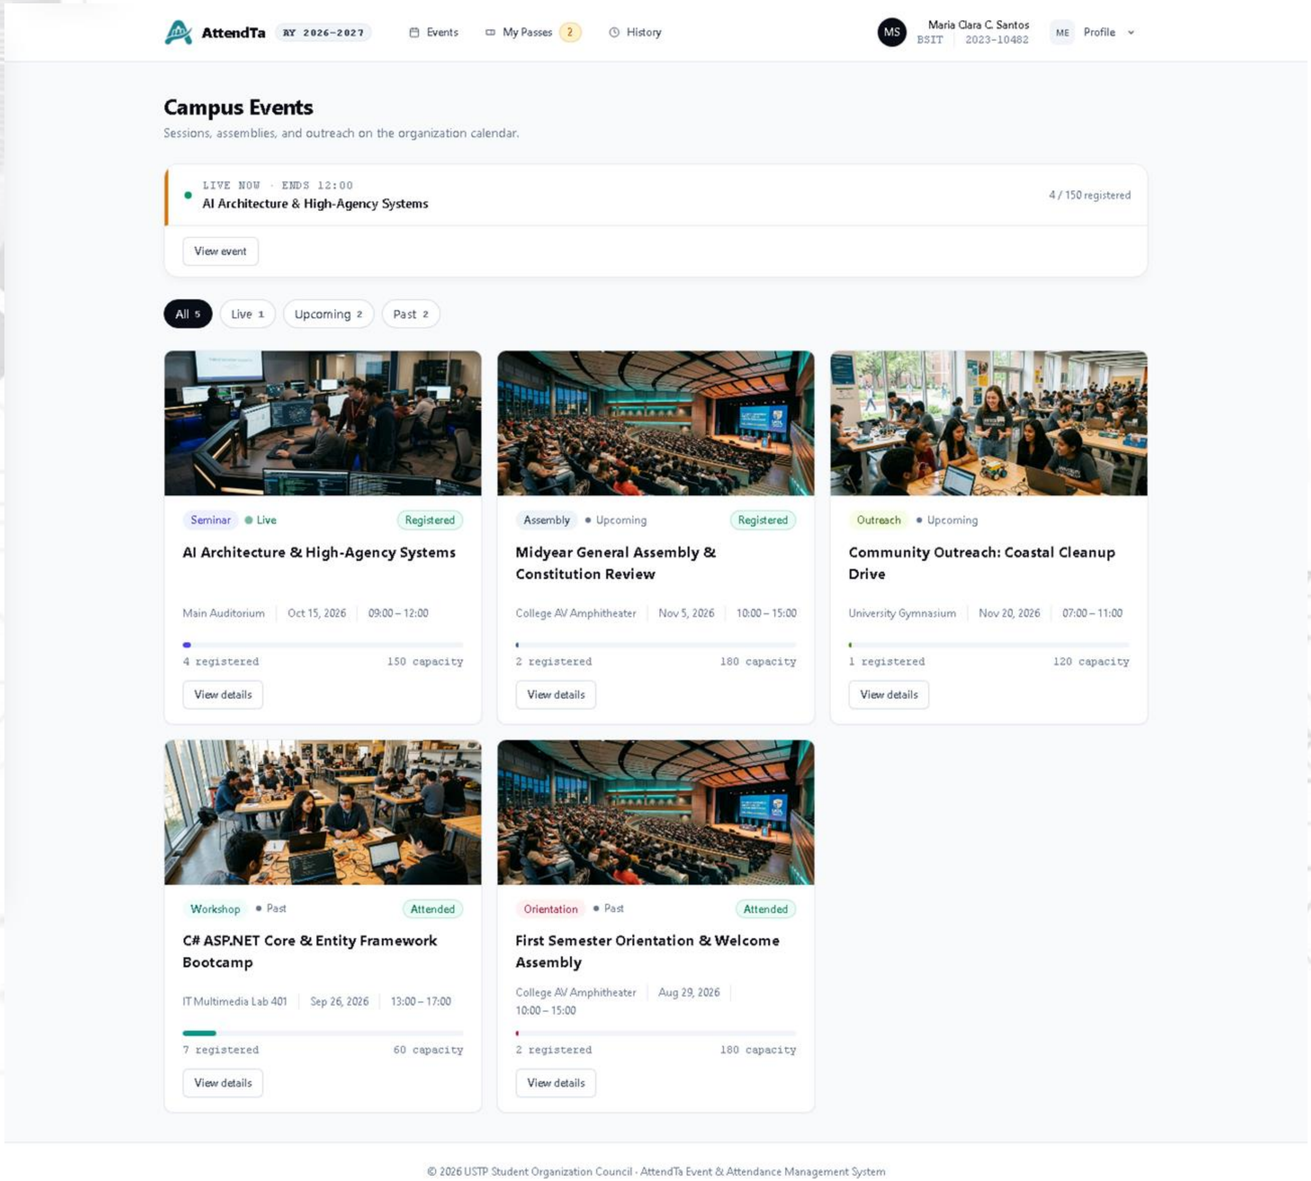

REG-02
- Review until event start, including after signup deadline
- confirm only if capacity and queue priority allow
- otherwise waitlist
- QR only on confirmation.

10.0 Event details and registrations Logic (3/3)

REG-04
- Explicit next eligible waitlist promotion
- review-time/ID order
- recheck seat availability
- before event start only.

REG-05
- Deadline stops signup
- event start stops review/promotion/member cancellation
- unresolved requests become history and are excluded from no-shows.

11.0 Browse events

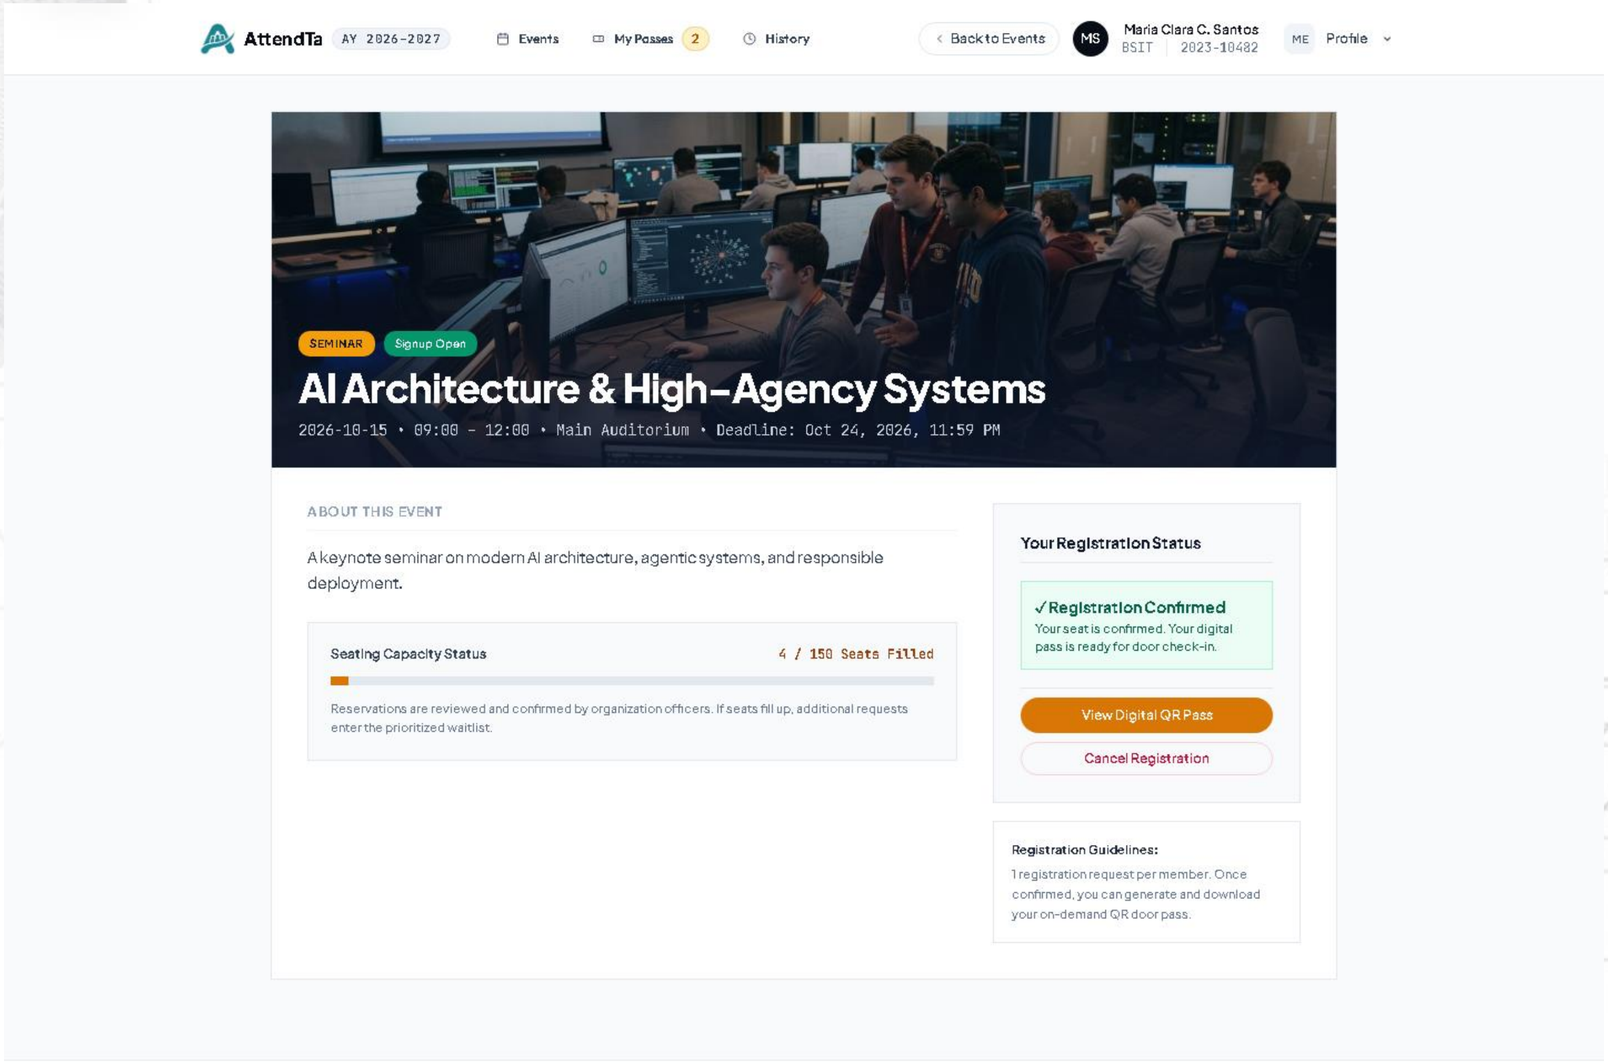

Member | EVT-02, REG-01

11.0 Browse events Logic

EVT-02
- Before deadline: open
- at/after deadline: closed
- label local time
- closing signup does not complete/cancel the event.

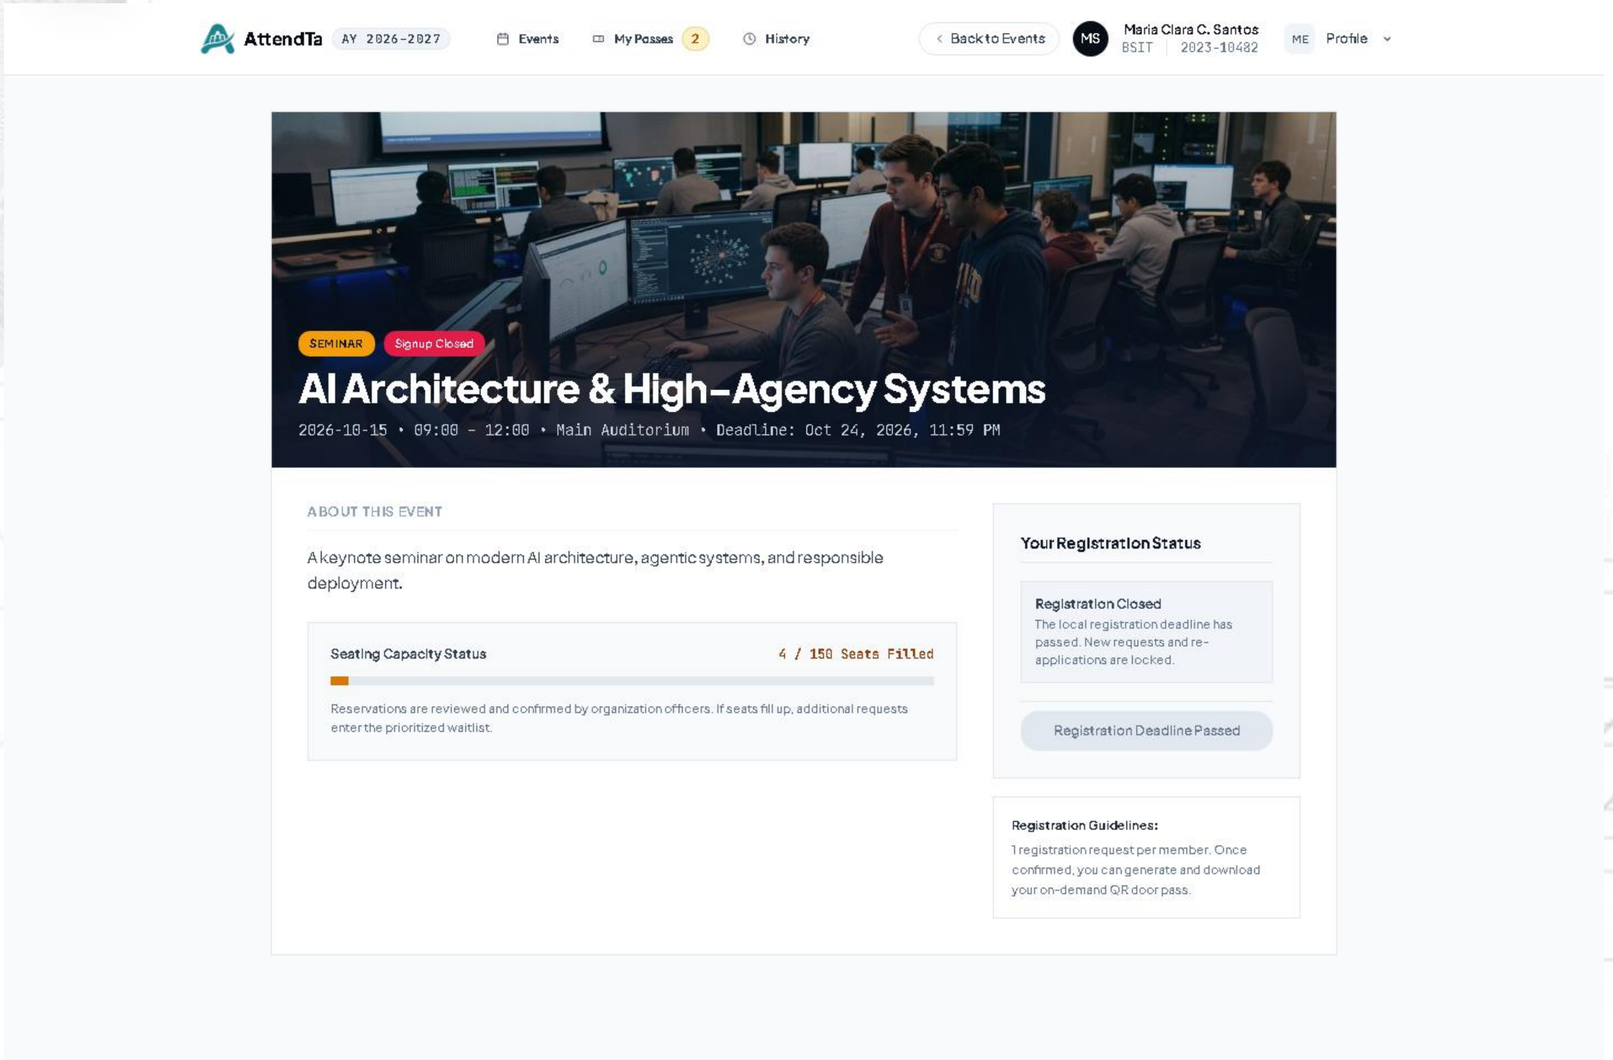

REG-01
- One pending request per member/event
- full event allows request with waitlist warning
- store academic snapshot
- no reapplication after cancellation.

12.0 Member event details

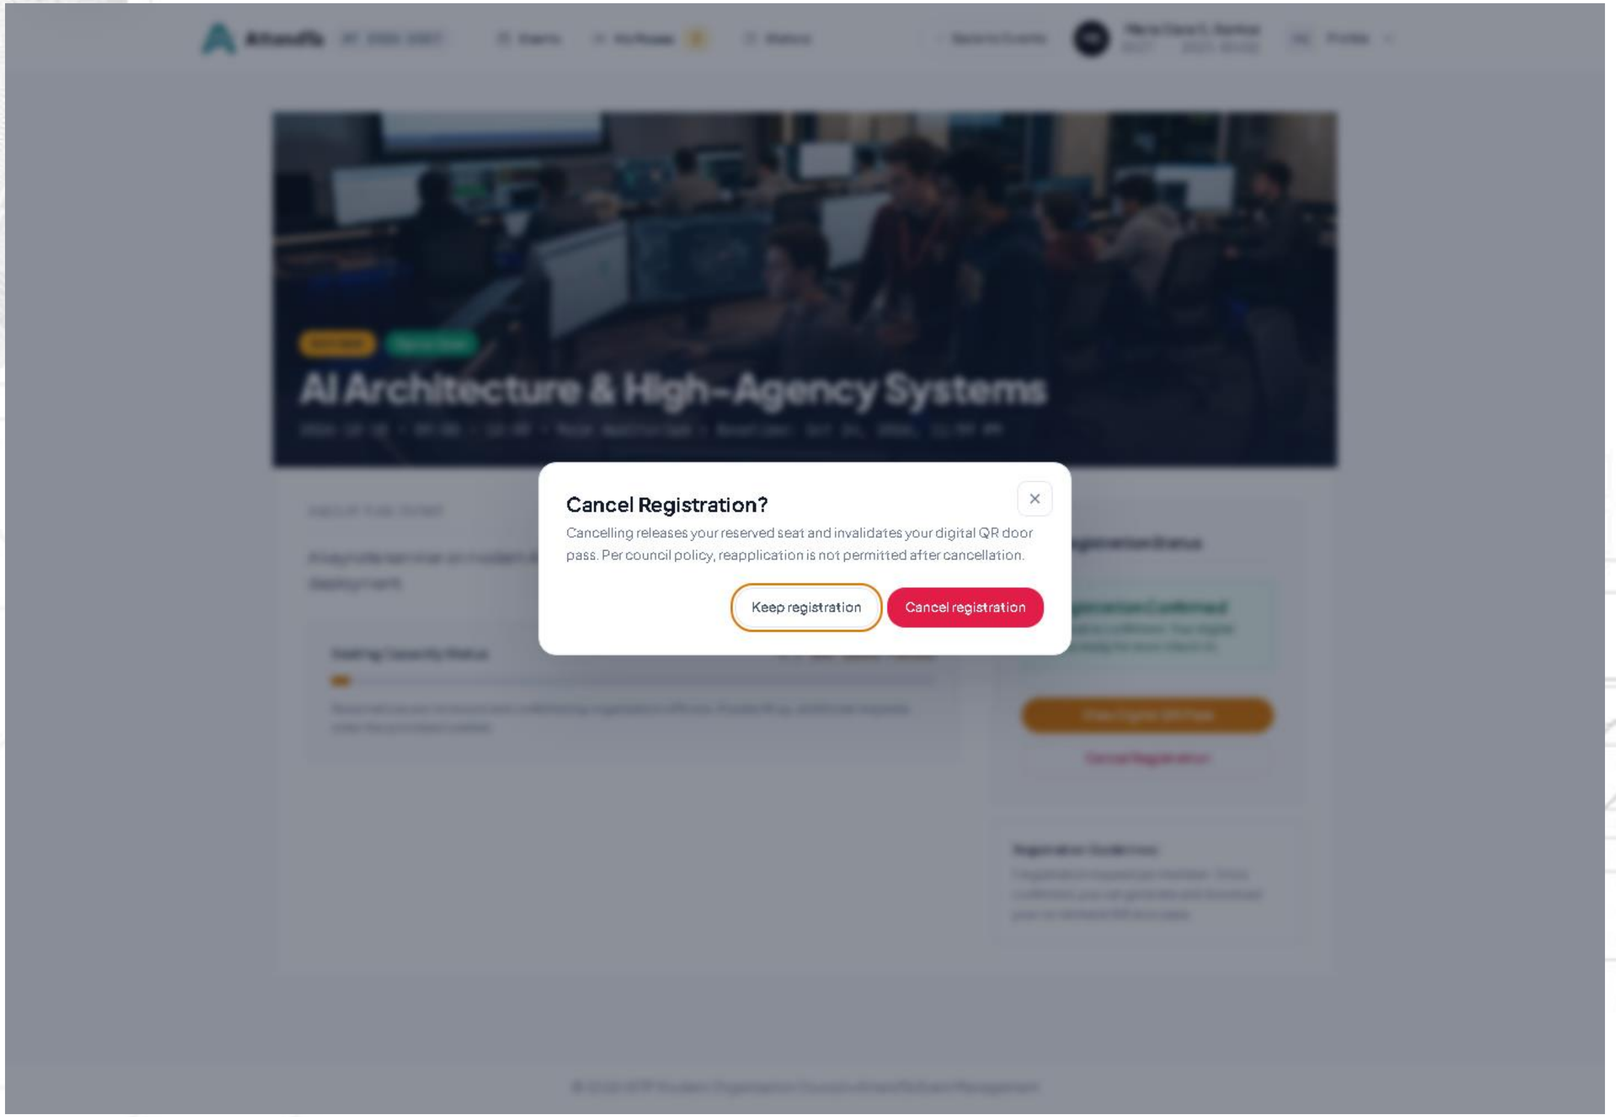

Member | EVT-02, REG-01, REG-03, REG-05

12.0 Member event details — Signup closed

EVT-02, REG-01, REG-03, REG-05 | Supporting screen state

12.0 Member event details — Cancel registration

EVT-02, REG-01, REG-03, REG-05 | Supporting screen state

12.0 Member event details Logic (1/2)

EVT-02
- Before deadline: open
- at/after deadline: closed
- label local time
- closing signup does not complete/cancel the event.

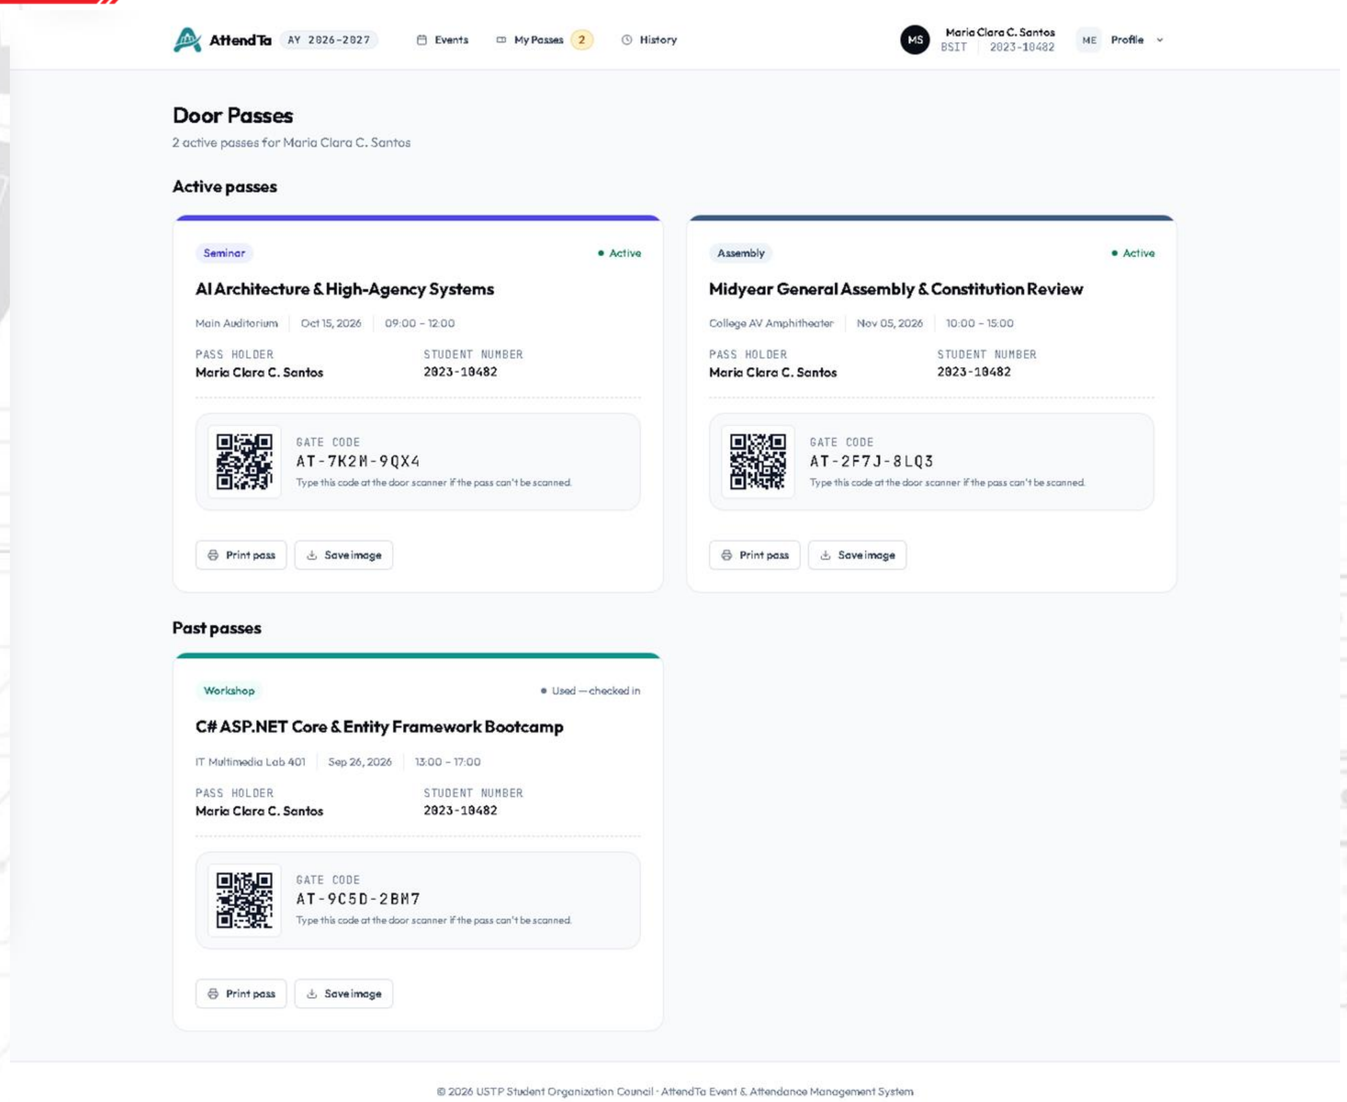

REG-01
- One pending request per member/event
- full event allows request with waitlist warning
- store academic snapshot
- no reapplication after cancellation.

12.0 Member event details Logic (2/2)

REG-03
- Member cancellation before start and without valid attendance
- confirm decision
- invalidate QR/release seat
- no automatic promotion or reapplication.

REG-05
- Deadline stops signup
- event start stops review/promotion/member cancellation
- unresolved requests become history and are excluded from no-shows.

13.0 My passes

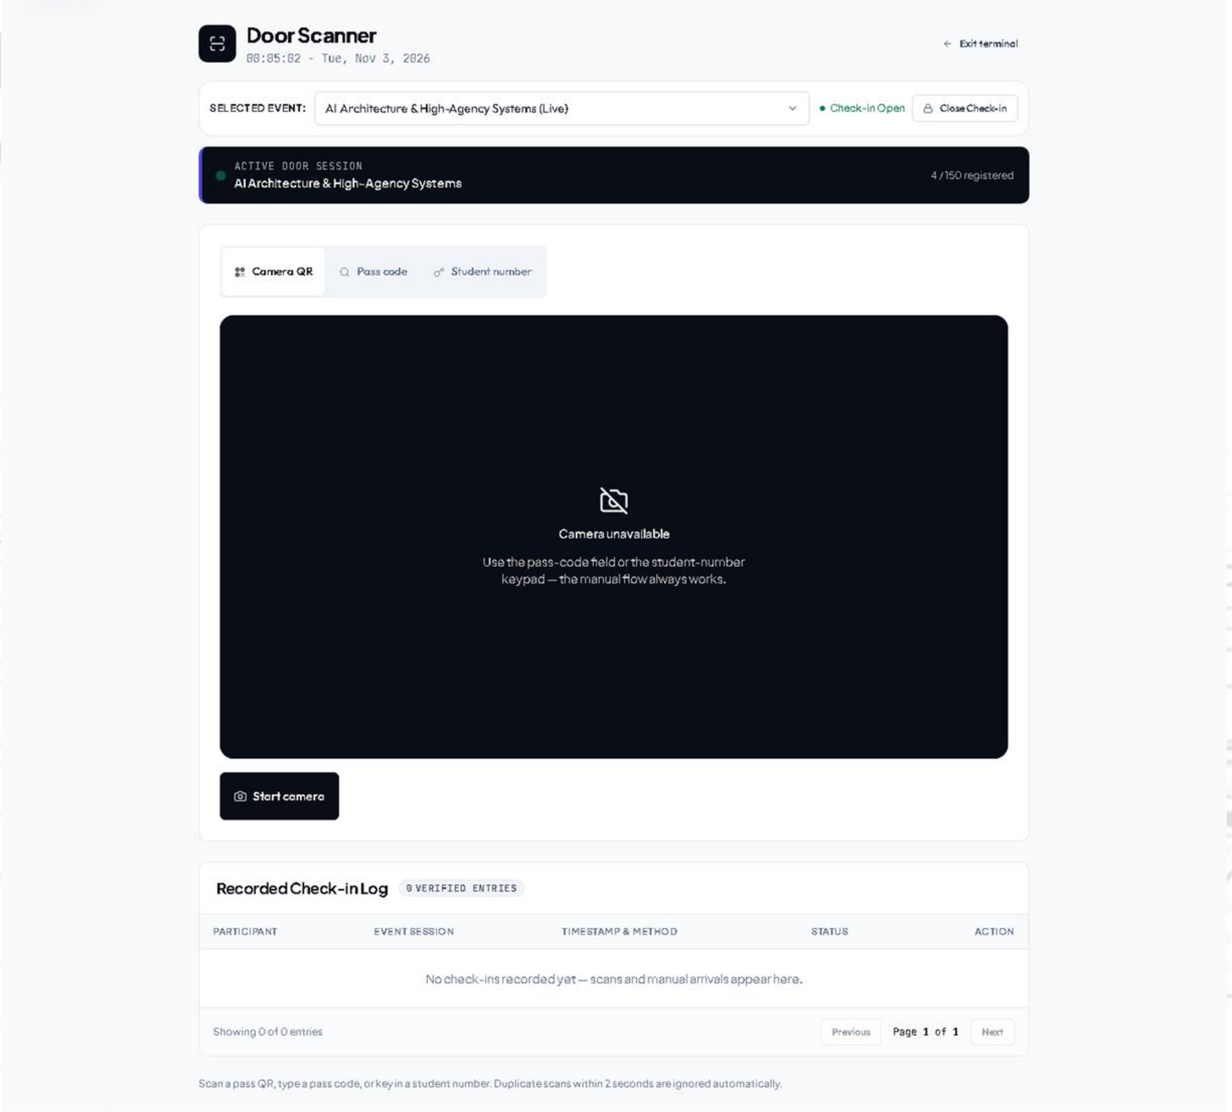

13.0 My passes Logic

QR-01

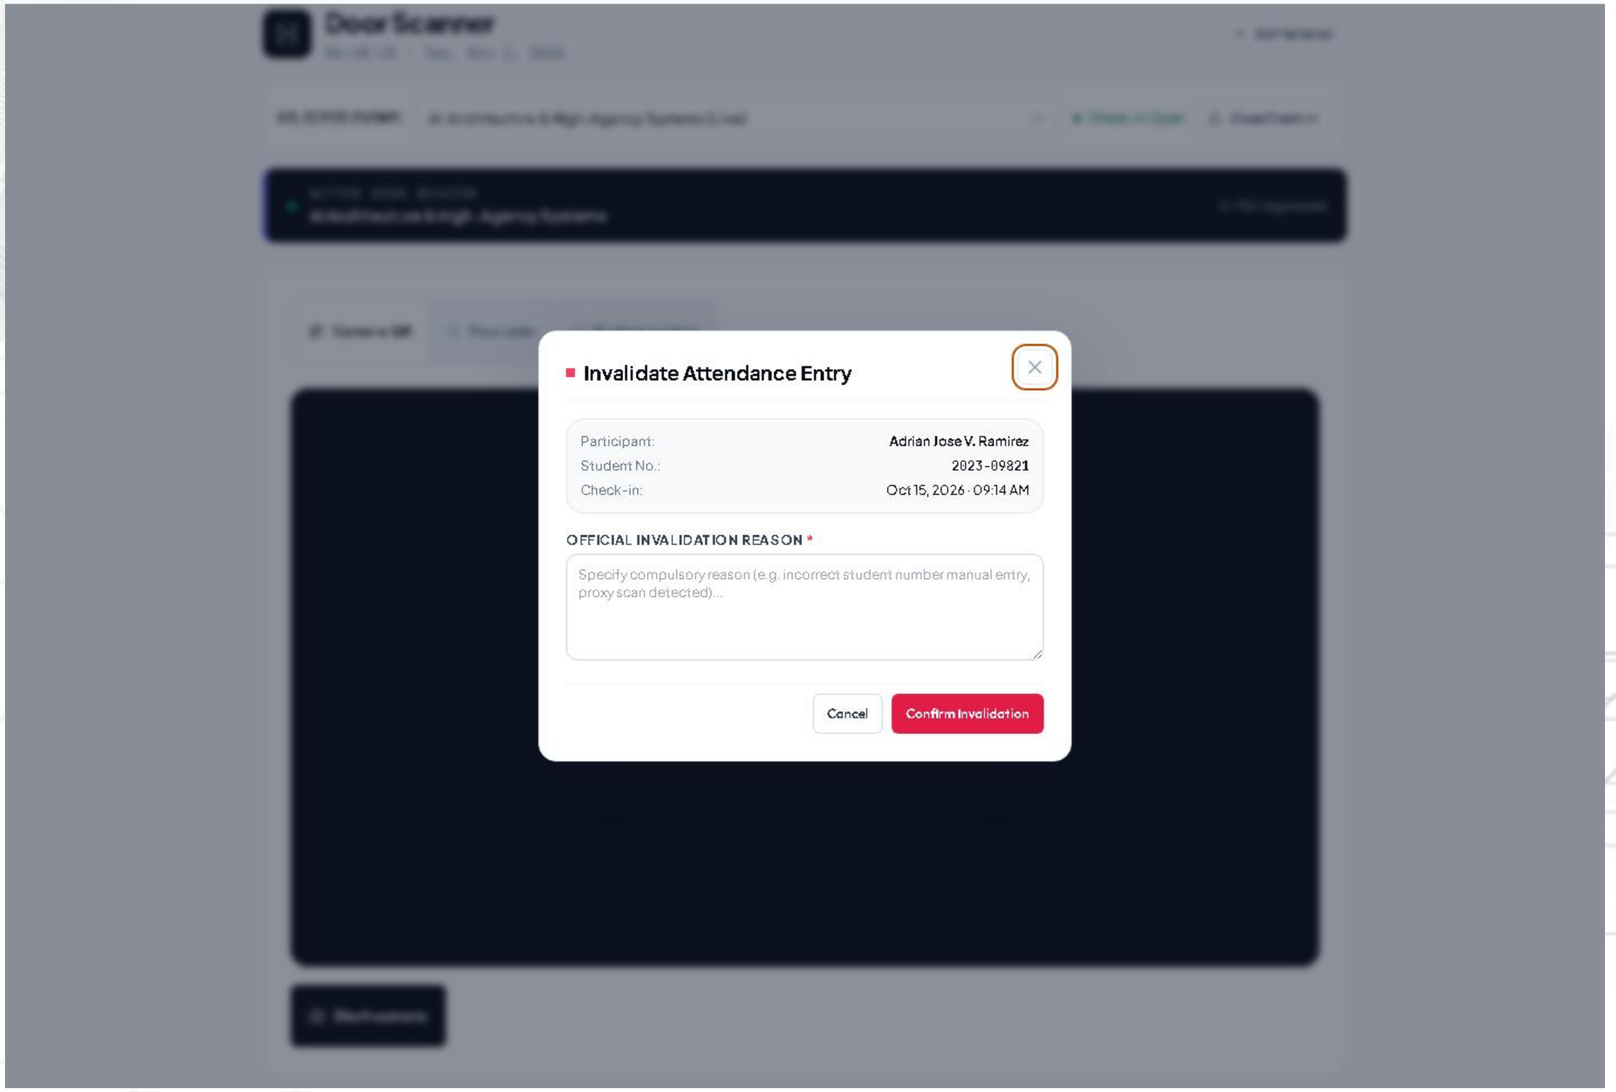

- Confirmed event-specific pass
- PNG download
- cancelled/unconfirmed has no usable QR
- officer validates online.

14.0 Door scanner

Officer/Admin | ATT-01, ATT-02

14.0 Door scanner — Invalidate attendance

ATT-01, ATT-02 | Supporting screen state

14.0 Door scanner Logic (1/2)

ATT-01

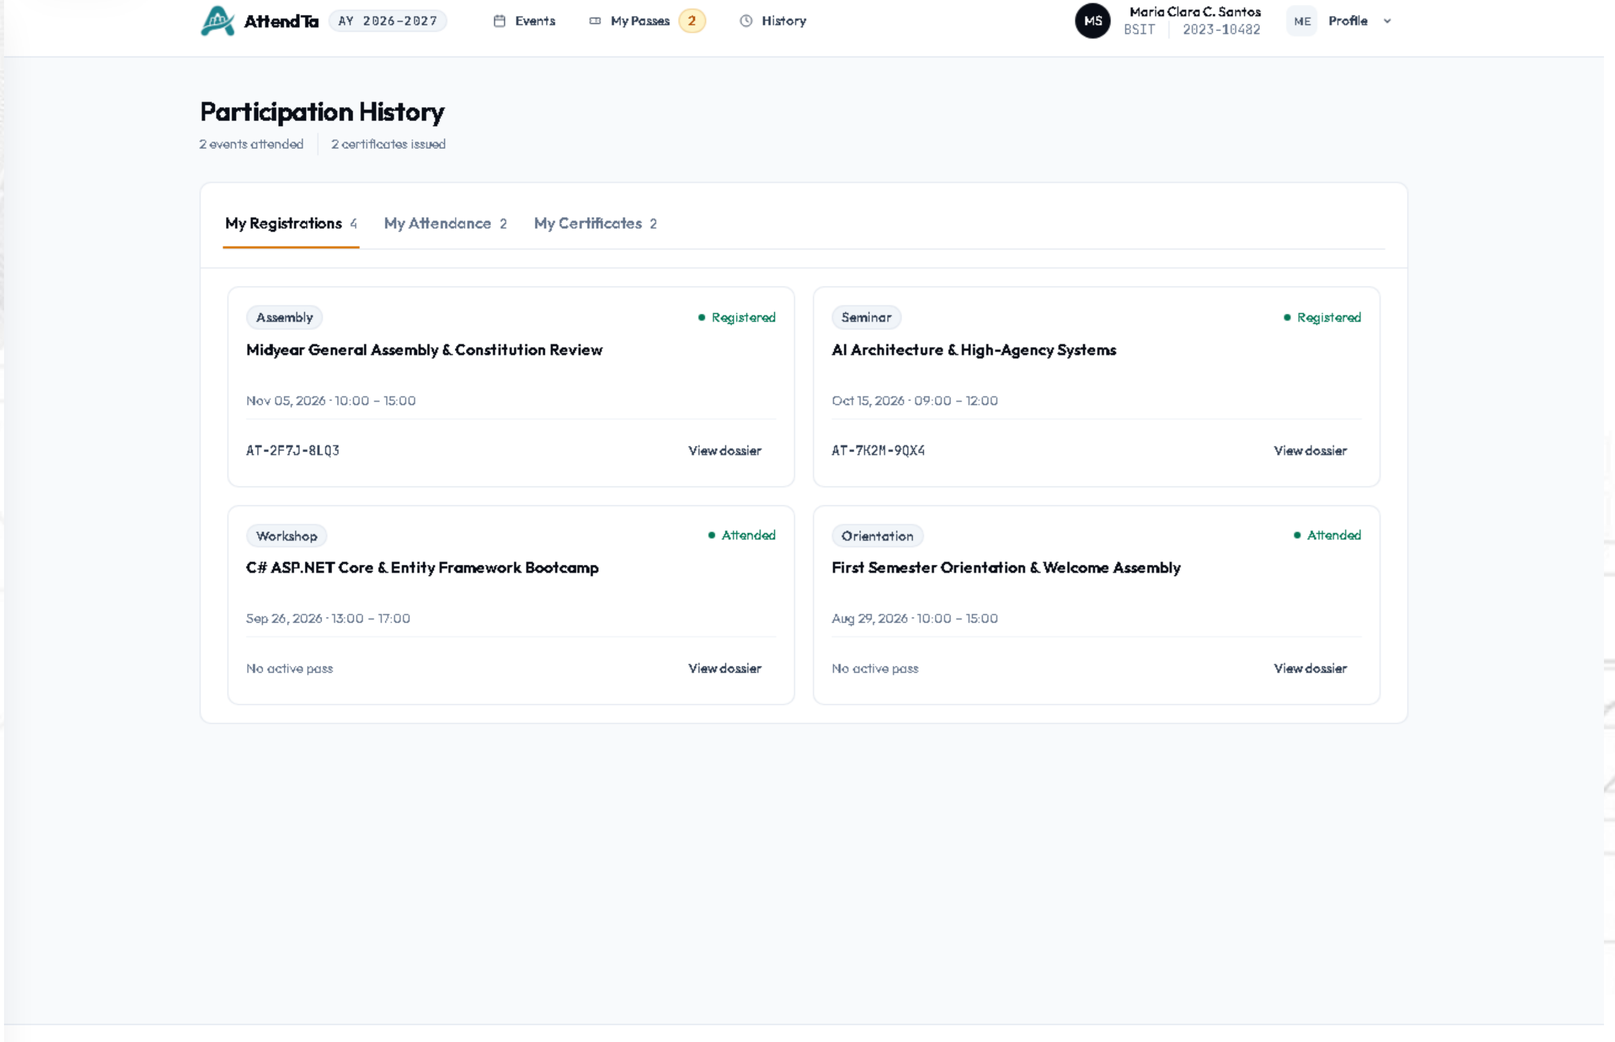

- Officer controls check-in
- scan or explicit manual lookup
- check event/confirmation/eligibility
- timestamp attendance
- prevent duplicates
- show participant identity.

14.0 Door scanner Logic (2/2)

ATT-02

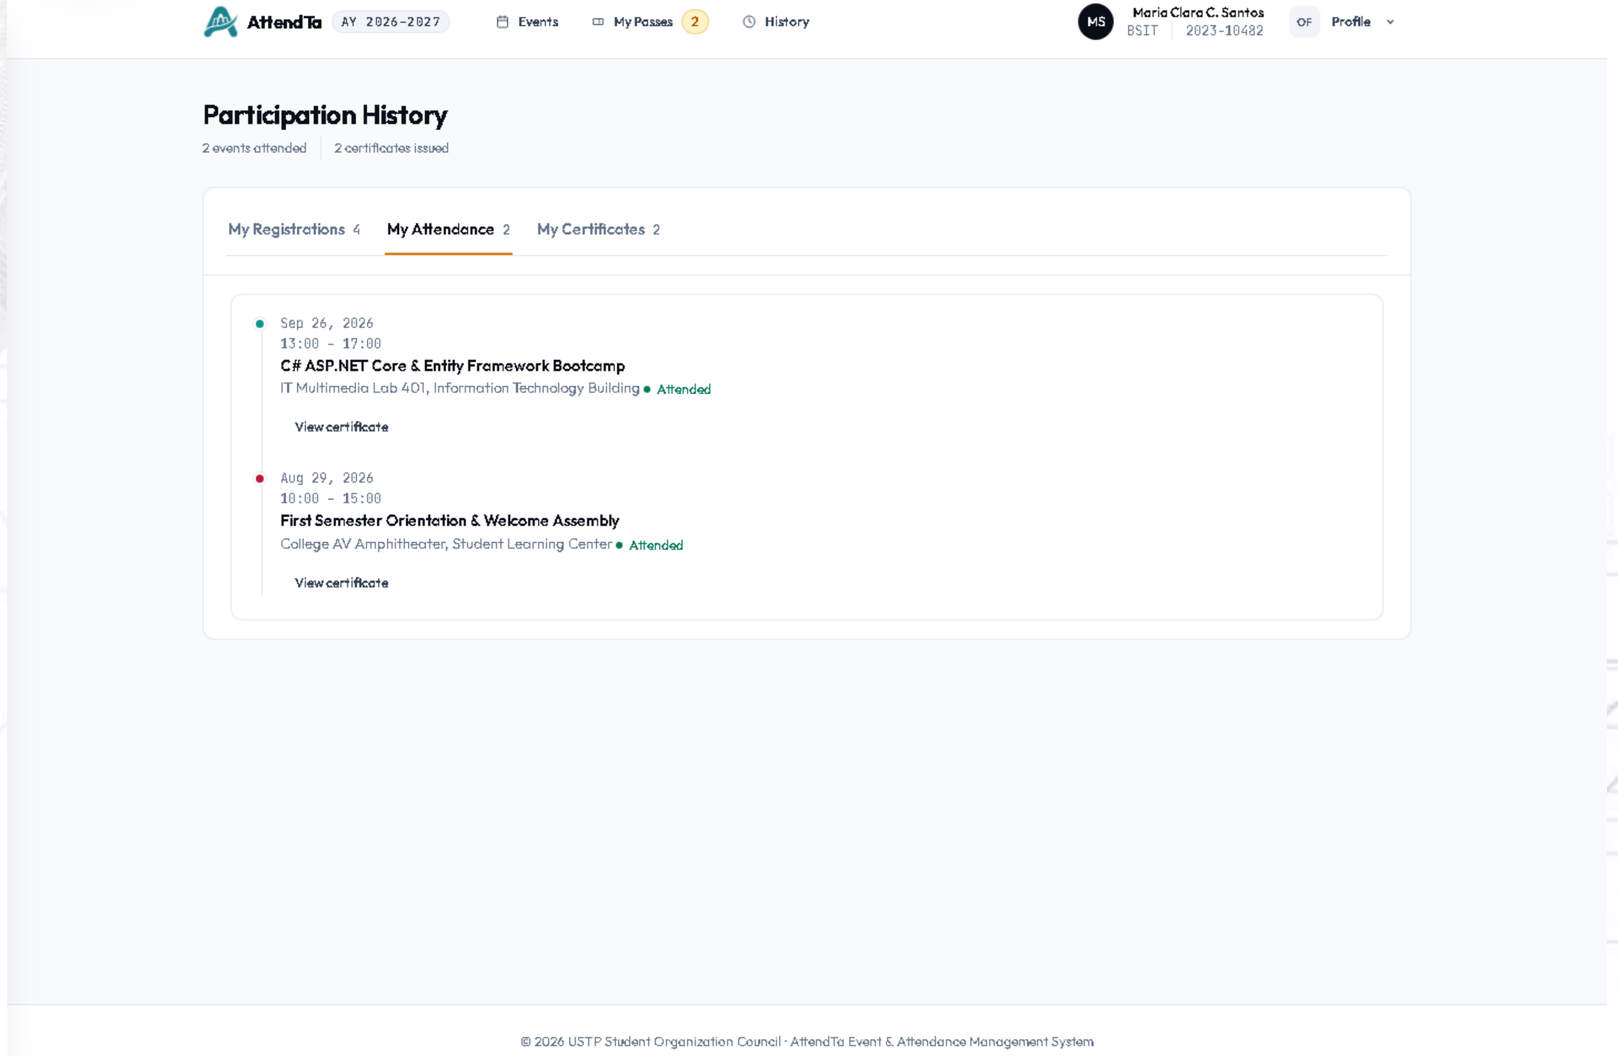

- Invalidate with reason
- retain history
- exclude from reports/unissued eligibility
- block after certificate issuance
- prevent re-check-in after invalidation.

15.0 My attendance

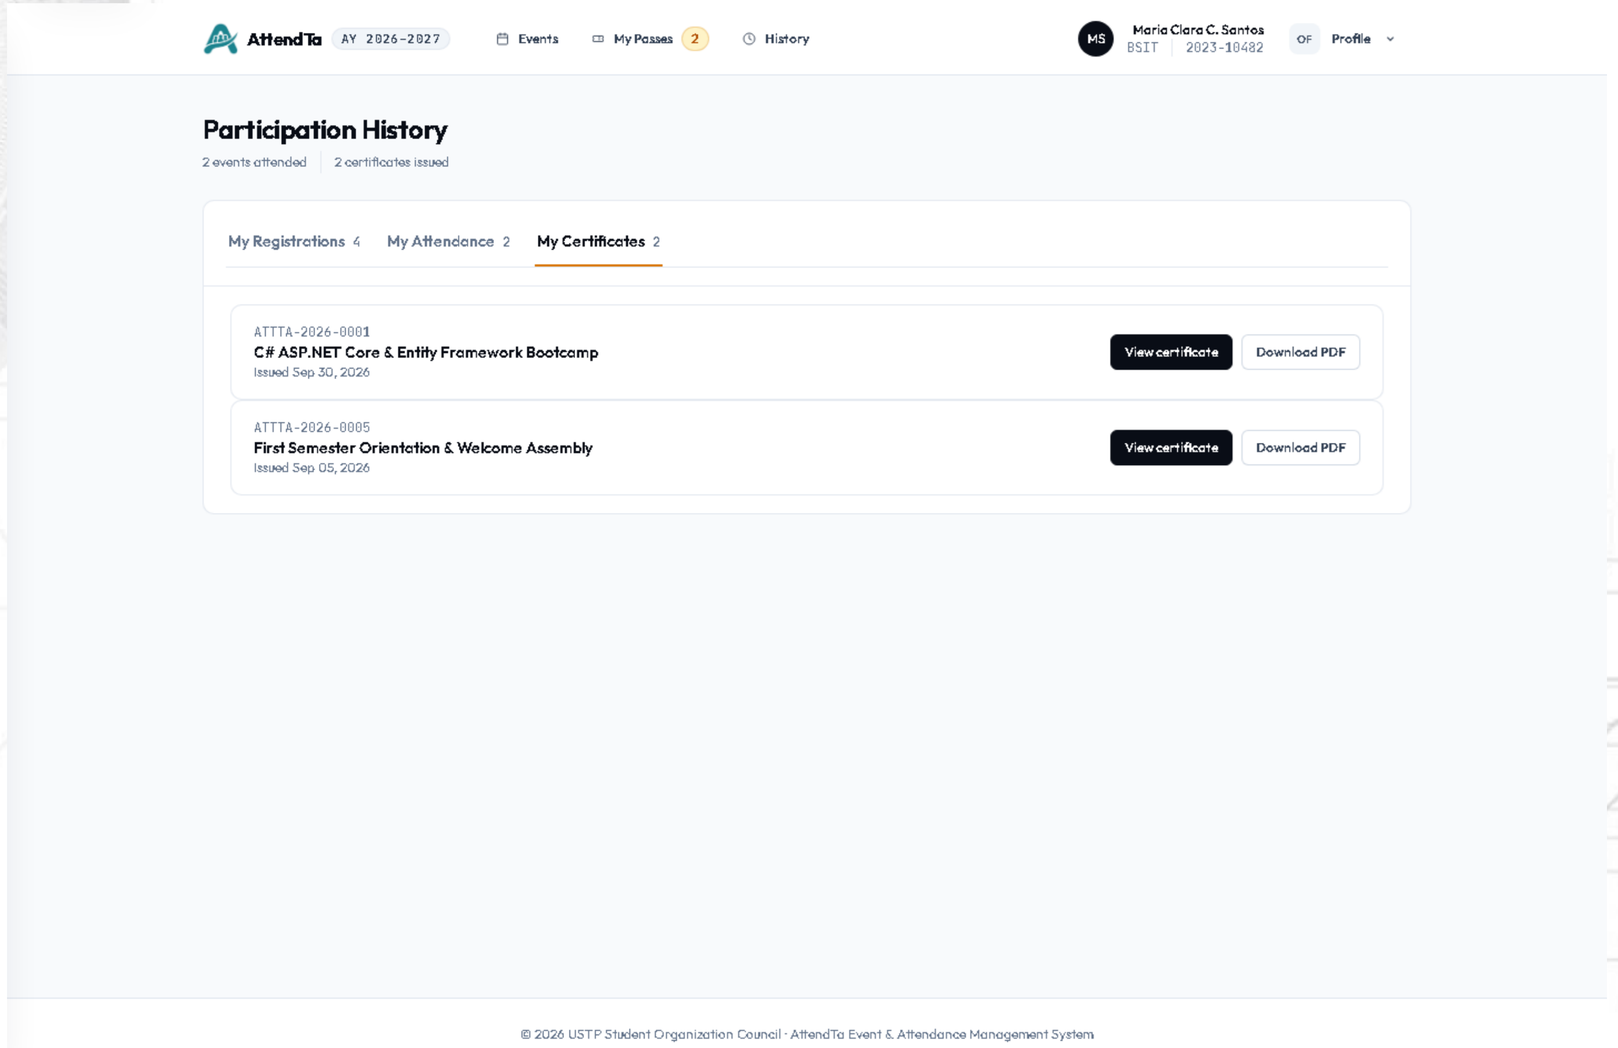

Member | ATT-03, CERT-02

15.0 My attendance

15.0 My attendance

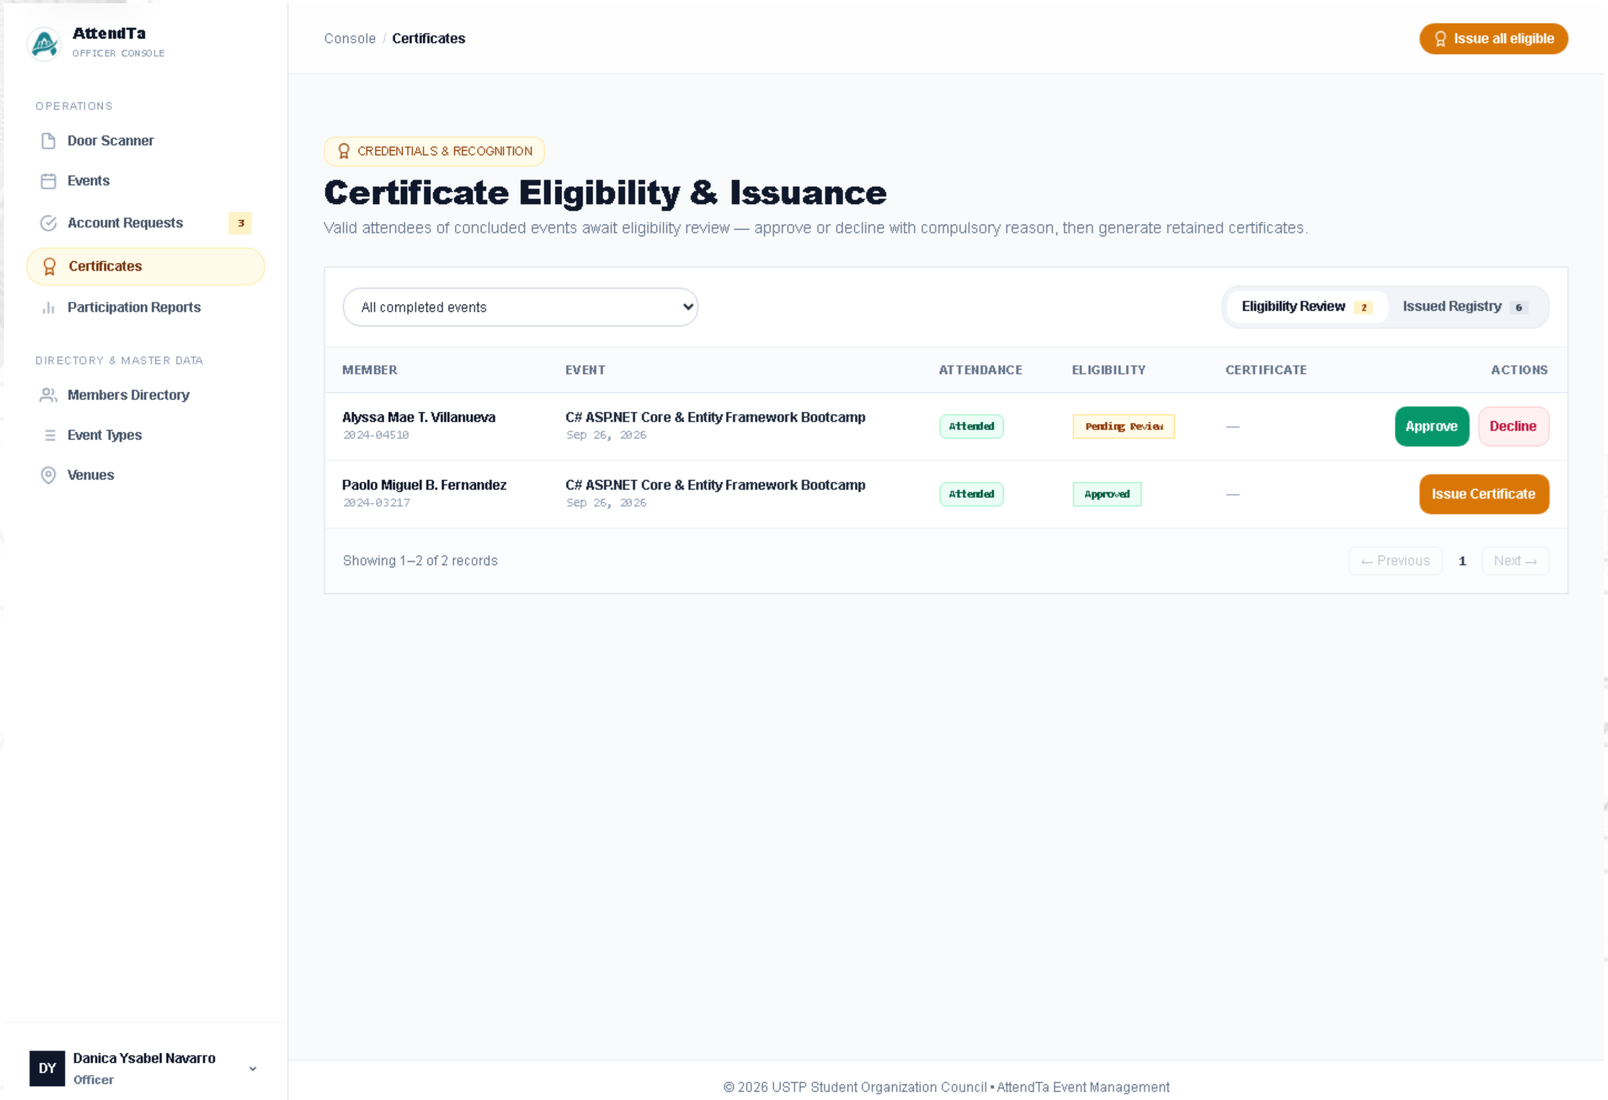

15.0 My attendance Logic

ATT-03
- Personal history only
- show corrected records
- member cannot check in or invalidate self.

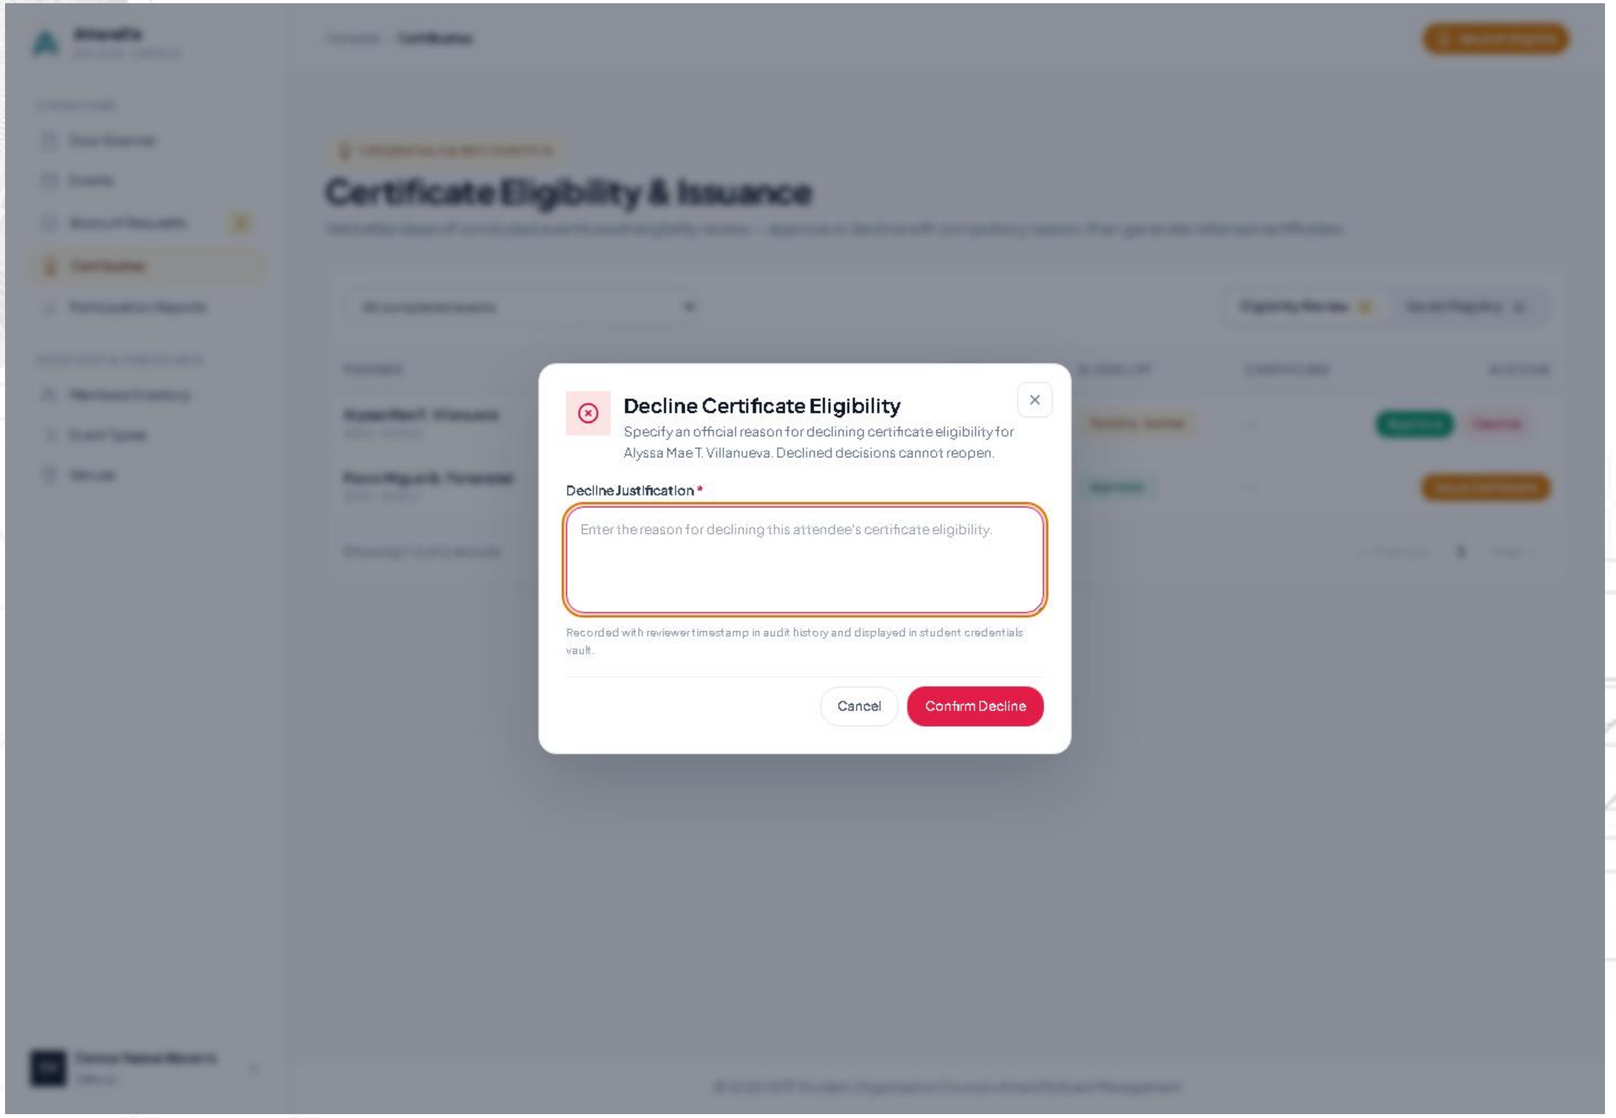

CERT-02
- Approved eligibility required
- one fixed-template certificate
- unique number and issuer/snapshots
- authorized download
- failure does not create duplicates or rewrite issued document.

16.0 Certificates

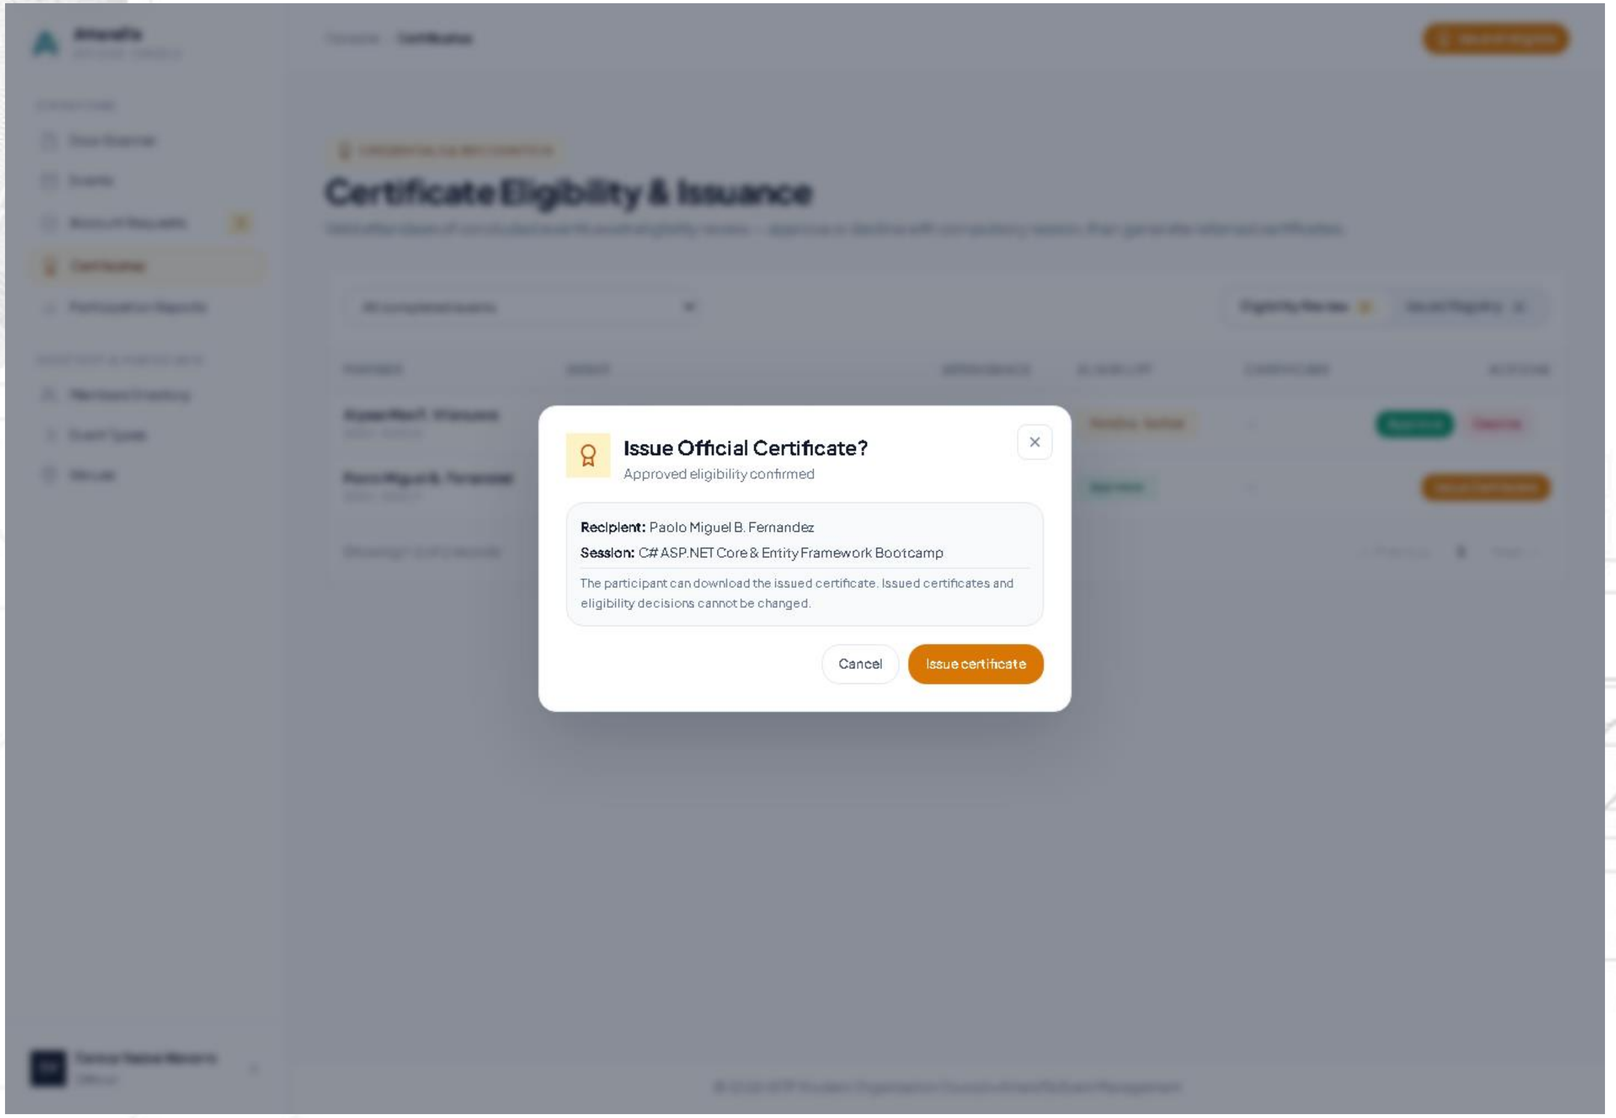

Officer/Admin | CERT-01, CERT-02

16.0 Certificates — Decline eligibility

CERT-01, CERT-02 | Supporting screen state

16.0 Certificates — Issue certificate

CERT-01, CERT-02 | Supporting screen state

16.0 Certificates Logic (1/2)

CERT-01

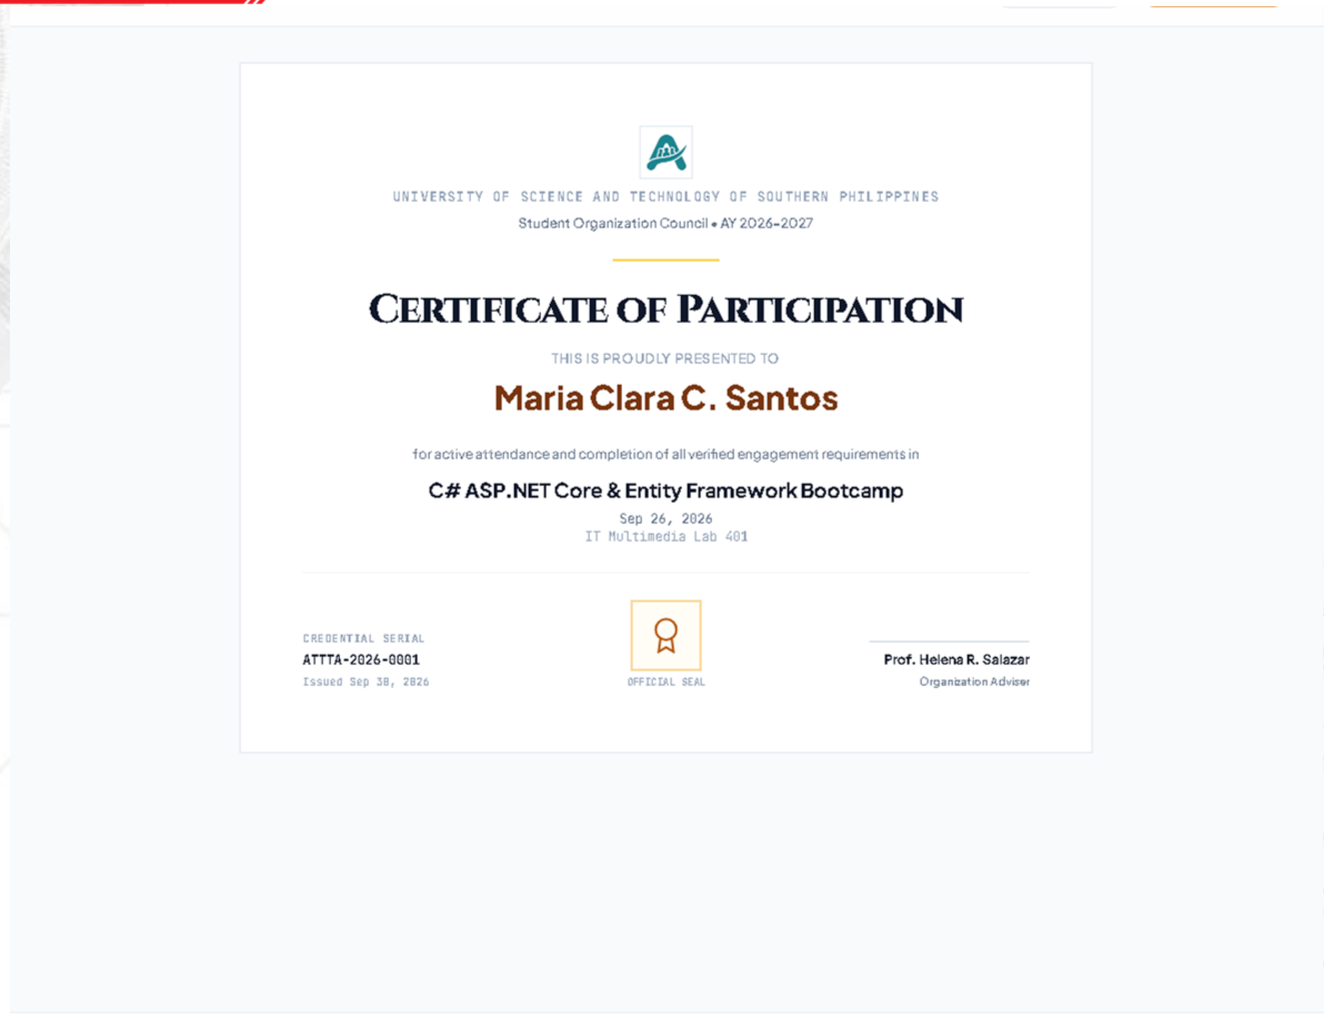

- Completed event + valid attendance
- approve or decline
- reviewer/time
- decline requires reason
- declined cannot reopen
- issued cannot change.

16.0 Certificates Logic (2/2)

CERT-02

- Approved eligibility required
- one fixed-template certificate
- unique number and issuer/snapshots
- authorized download
- failure does not create duplicates or rewrite issued document. Retained PDF is future implementation.

17.0 Certificate viewer

CERTIFICATE OF PARTICIPATION

THIS IS PROUDLY PRESENTED TO

Maria Clara C. Santos

for active attendance and completion of all verified engagement requirements in

C# ASP.NET Core & Entity Framework Bootcamp

Sep 26, 2026

IT Multimedia Lab 401

CREDENTIAL SERIAL

ATTTA-2026-0001

Issued Sep 30, 2026

OFFICIAL SEAL

Prof. Helena R. Salazar

Organization Adviser

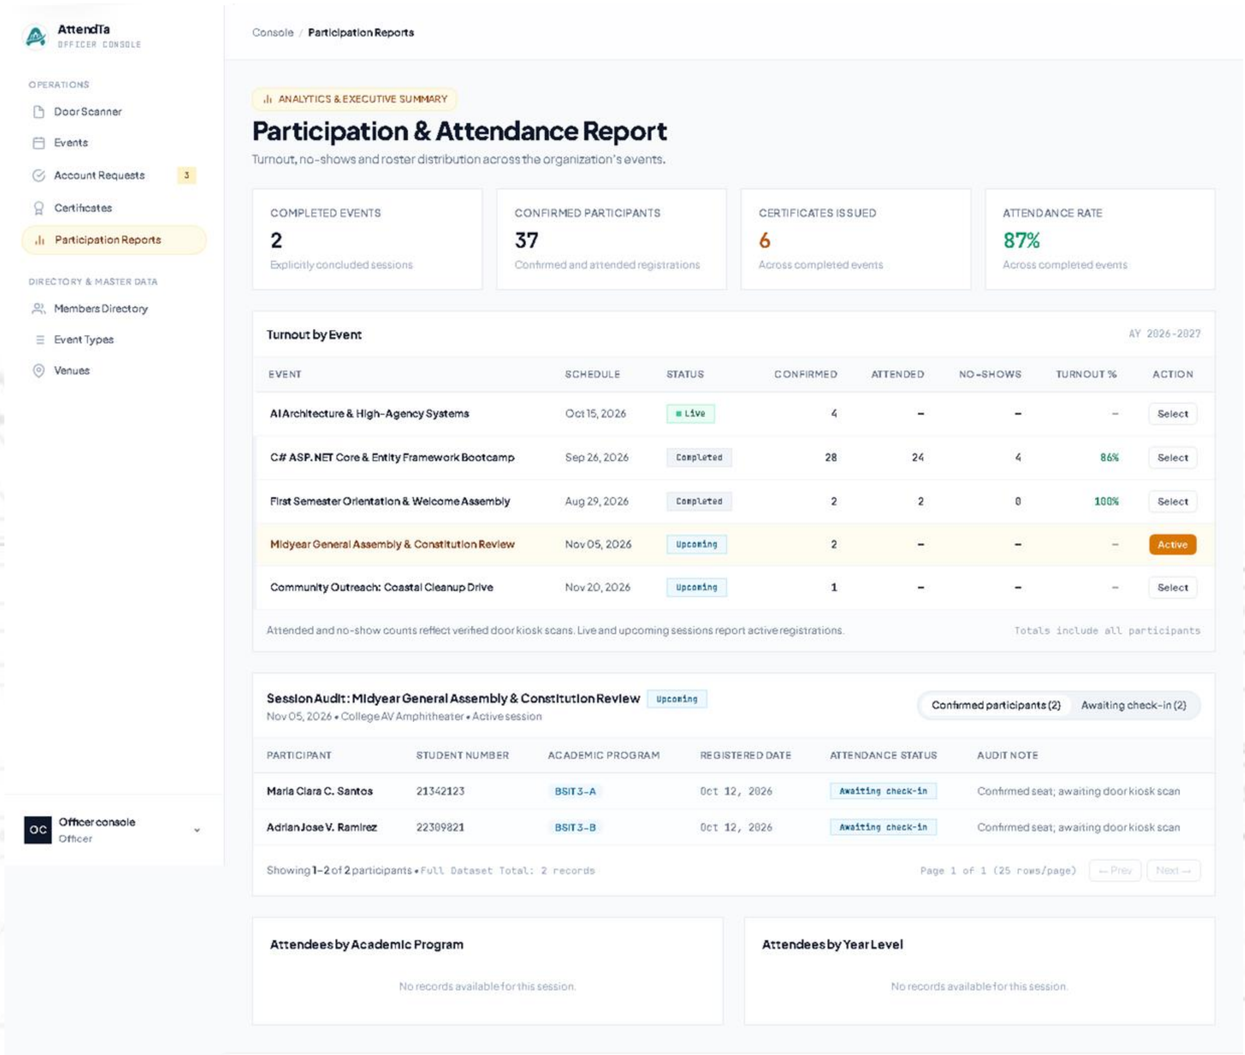

© 2026 USTP Student Organization Council • AttendTa Credentials

17.0 Certificate viewer Logic

CERT-02

- Approved eligibility required
- one fixed-template certificate
- unique number and issuer/snapshots
- authorized download

18.0 Participation reports

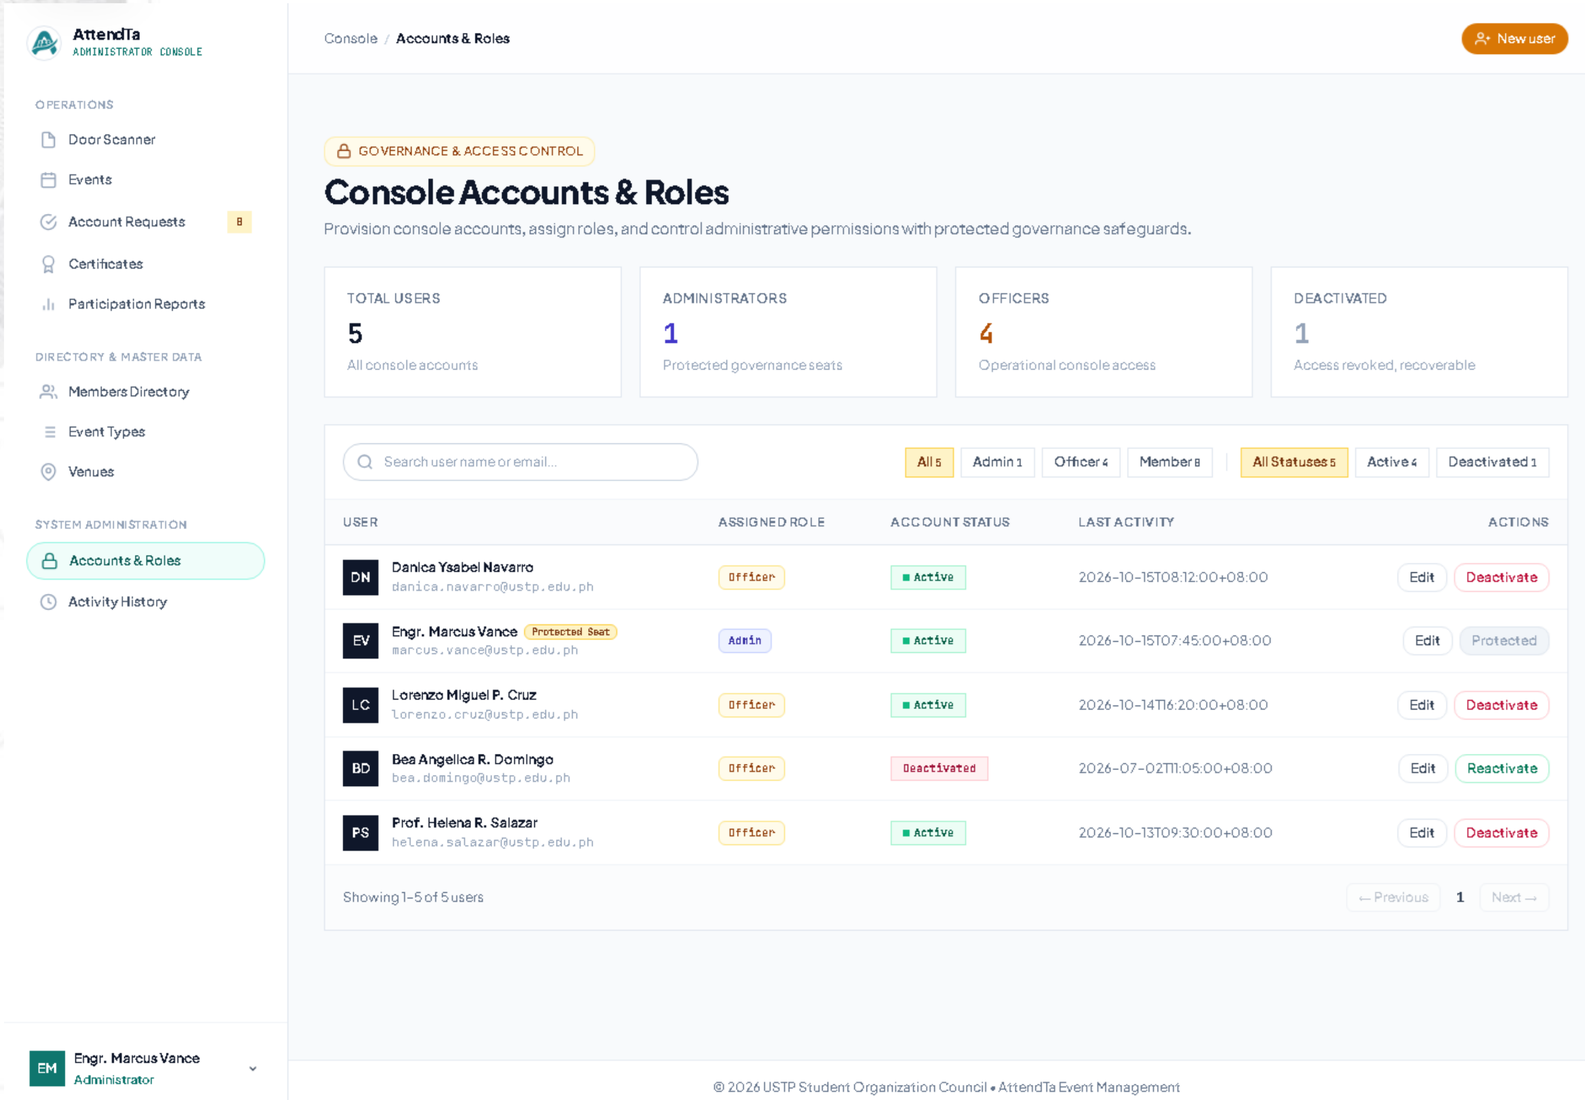

18.0 Participation reports Logic

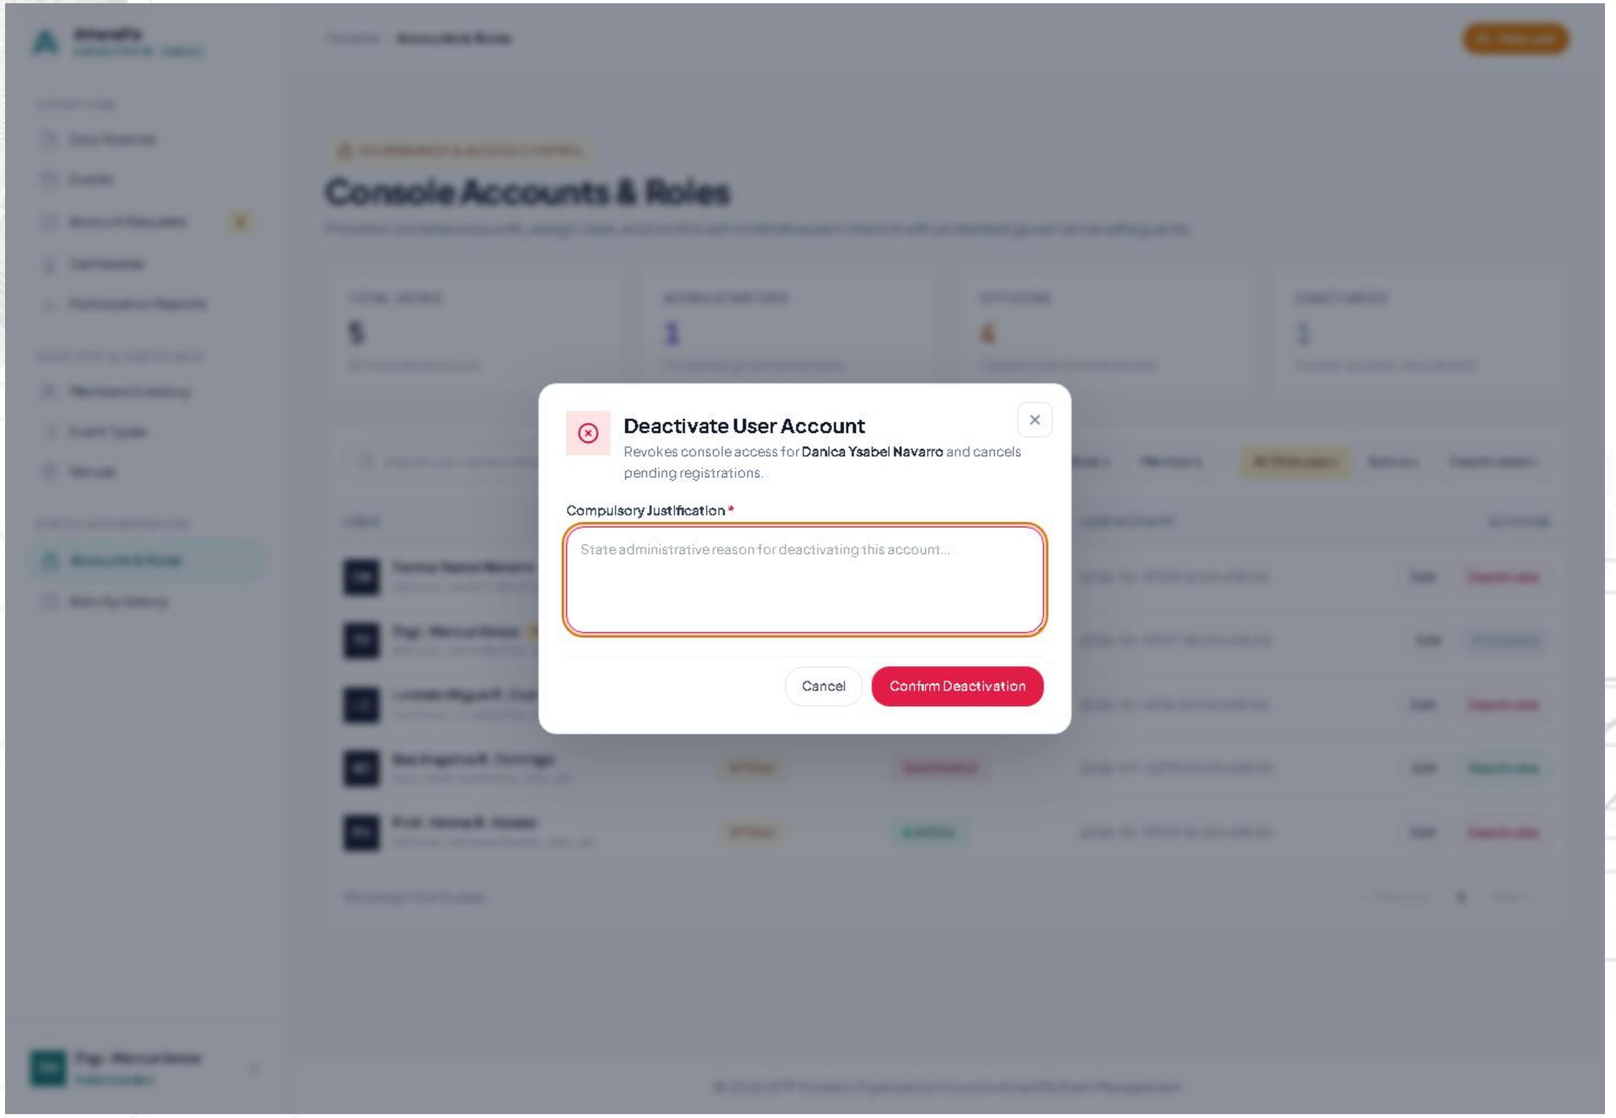

REP-01

- Full-dataset totals
- expected attendance excludes unconfirmed/cancelled
- completed-event no-shows
- course/year from signup snapshots
- paginate details only

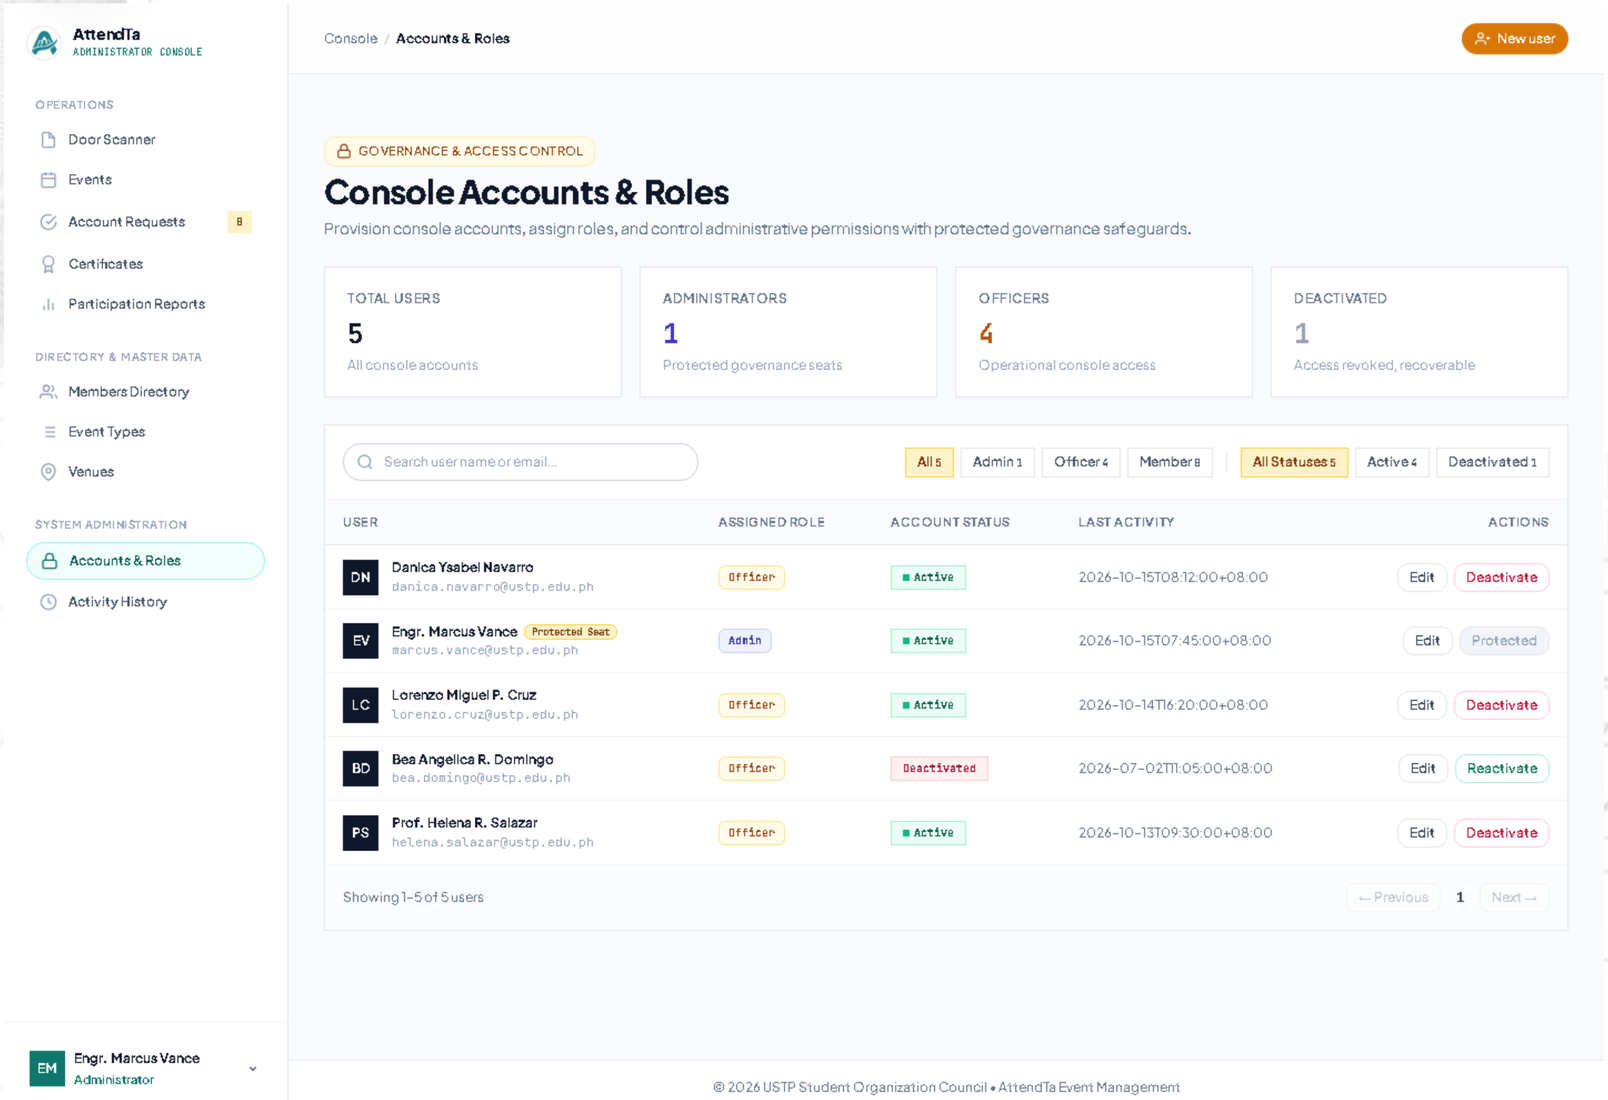

19.0 Accounts and roles

19.0 Accounts and roles — Deactivate account

19.0 Accounts and roles — Last administrator protection

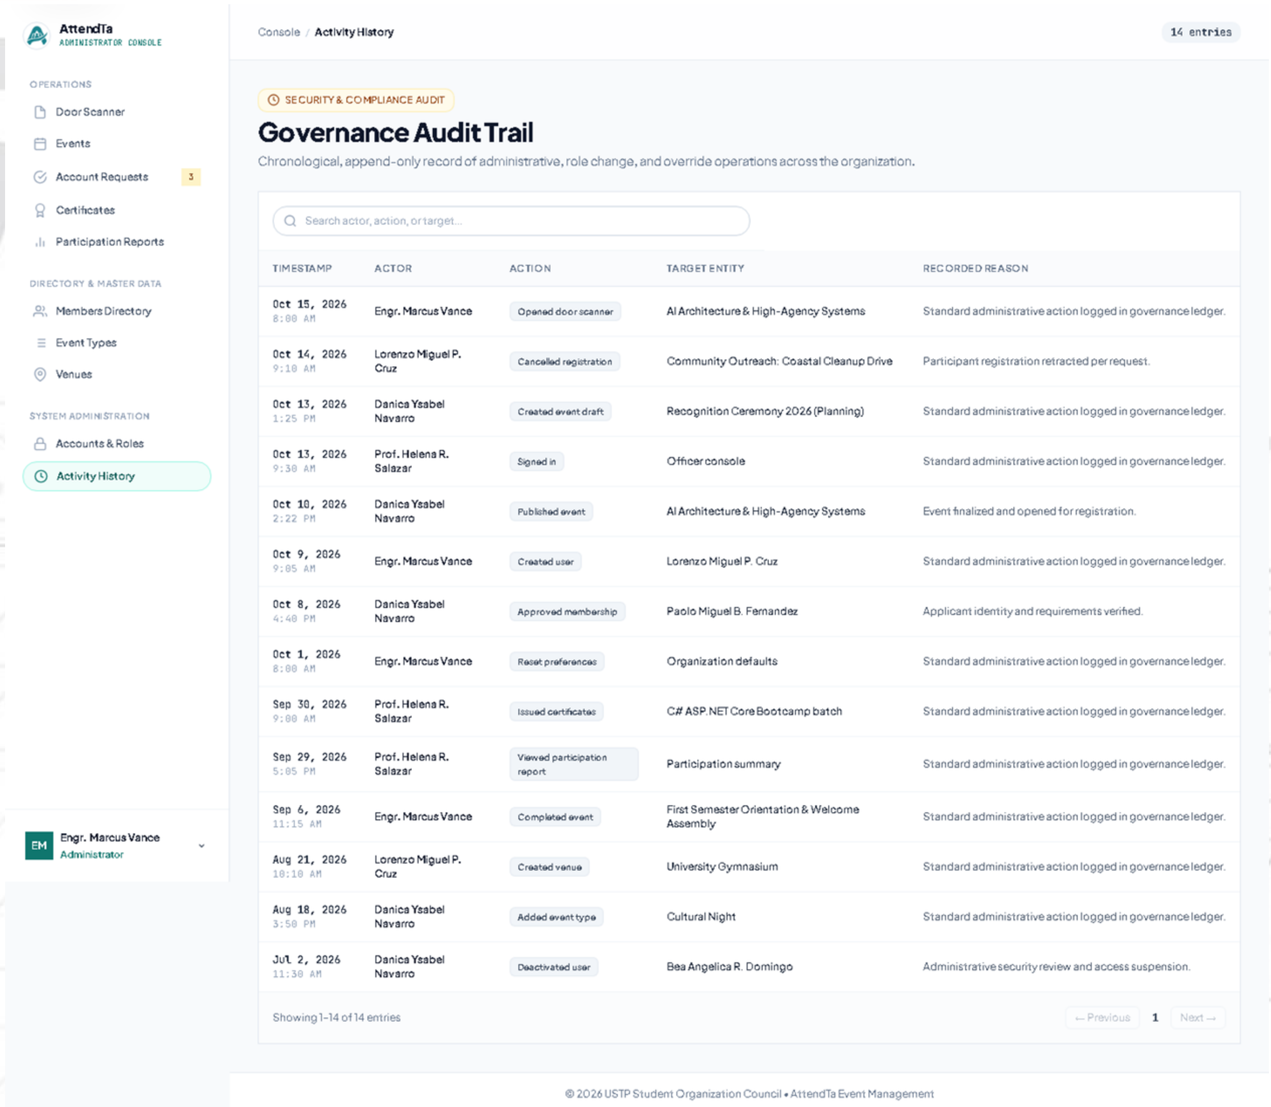

ADM-01 | Supporting screen state

19.0 Accounts and roles Logic

ADM-01

- Admin-only fixed roles/account access
- reasons for deactivate/reactivate
- protect last active admin
- preserve history
- no automatic seat restoration or promotion.

20.0 Activity history

20.0 Activity history Logic

ADM-02

- Read-only actor/action/record/time/reason
- preserve history
- no credential exposure, advanced filters or field-comparison views.

Thank You!
